SALOON MEN ARE PICKED ALREADY

Said That Six Out of Seven Men,
All of Whom Are Democrats,
Will Get Liquor Licenses.

IN CASE CITY GOES "WET"

They Are Bearing Expense of Cam-
paign and Circulated Petitions
For Signatures.

The "slate" has been prepared, according to the best authorities, and if it were necessary, it would be possible to pick right now the six men who are the chosen half dozen of the Democratic organization who are to get the saloon licenses in Rushville in case the city goes "wet" at the local option election to be held here Tuesday, March 30.

Men who are said to be picked in advance for licenses are John Kelley, former city street commissioner under the Black administration and one-time saloon keeper in Rushville; "Jim" Smith, who had a saloon here the last time Rushville was "wet"; James (Whitie) Barrett, former saloon keep who now runs the Eagle Cafe; August Roth, former saloon keeper, who is now operating a pool room on the south side of the public square; Eddie Wolter, former saloon keeper and now pool room owner, whose place was raided Thursday night by the police, and either Tom Evans or John Gantner, both prominent in the Democratic organization here.

Those who have been watching the situation closely, feel assured that these are the men who will hold the saloon licenses in Rushville if the city goes "wet." They have always stood with the Democratic party. A majority of the members of the county board of commissioners, who grant the licenses are Democratic.

It is known to be the case that the men who have picked to get the benefits if the city goes "wet" are standing the expense of the campaign for an election; that they have, in fact, been assessed a certain amount each to pay the necessary bills. It is said they are paying out this given sum of money with the expectations, of course, that it will all come back, and more too, in case the "wets" are victorious in the coming election.

The story that six out of the seven men mentioned will get the licenses in case Rushville goes "wet" is removed from the field of fiction when it is considered that these men have been bearing the brunt of the work necessary toward having an election called for Rushville. Practically all of them circulated petitions for signatures to call an election and they were witnesses last Wednesday when the commissioners considered the petition, witnesses to swear to the signatures of a number of persons which were questioned.

TO ADDRESS TWO MEETINGS

Ex-Senator Will Talk to Men's Meet-
ing and Mass Meeting.

The men's big meeting will be held at St. Paul's M. E. church tomorrow afternoon and will be addressed by Frank J. Cannon, former United States senator, at two-thirty o'clock. The meeting was formerly announced for two o'clock. Mr. Cannon will also speak at night to a union meeting at the Main Street Christian church at seven o'clock Sunday evening. Special music is announced for both services.

WOULDN'T GET HIS MEALS

One Allegation in Divorce Complaint
Filed by Osia Wingate.

Alleging that his wife was guilty of cruel and inhuman treatment, Osia Wingate filed suit today for divorce from Bessie Wingate. The complaint asserts that Mrs. Wingate refused to keep house and would not get his meals. They were married November 25, 1911, according to the complaint, and separated August 16, 1912. He alleges that she would leave home and be gone long periods at a time. On the final separation, he alleges that she wholly abandoned him and they have not lived together since. Kiplinger and Smith represent the plaintiff.

FIND NO EVIDENCE AT STORAGE PLACE

Police Raid Harry Pea's Second
Hand Store Friday Afternoon
Suspecting "Blind Tiger."

IS NEAR ED WOLTER'S ROOM

The police raided the second hand storage place conducted by Harry Pea in West Third street yesterday afternoon late, but failed to find any evidence of a "blind tiger." The police went to the place about four o'clock yesterday afternoon and a complete search failed to produce any evidence.

The owner did not object to the police going through the place and he assisted them through the building. The police have heard rumors concerning the second hand store and a search warrant was obtained in police court. The second hand store is located only a few doors west of the pool room conducted by Ed Wolter, which was raided Thursday night.

BURGLAR MAKES VERY SMALL HAUL

Enters L. H. Havens Grocery
Through New Addition and Steals
\$2 From Cash Register.

NOTHING ELSE MISSING

The L. H. Havens grocery, 701 North Main street, was entered last night and two dollars taken from the cash register. Entrance was gained by smashing a rear window and then unhooking it. A new addition is being erected at the back of the store and the burglar went in through this.

Nothing else in the store was touched and the robber was evidently after money. Chief Rosencrance passed by the store about ten-thirty last night but did not see anyone around the place. The burglar's tracks over a pile of flour sacks were noticeable this morning.

The funeral services of Harry Lakin will be conducted Sunday afternoon at two o'clock at the late residence in North Main street by the Rev. C. M. Yocum. Burial will take place in East Hill cemetery and will be in charge of the Red Men.

The remains of Edward Abernathy who died in Indianapolis, were brought here at noon today and taken to the home of his brother in Homer. The funeral services will be held Sunday afternoon at 2 o'clock in the Pleasant Ridge church.

REPORT ON LOSS FROM DOGS MADE

All But Two Township Trustees File
Statements With County Audi-
tor For Year.

\$33 SHORT DOWN IN ANDERSON

Sheep-Killing Dogs Are so Active
That County Will Have to
Make up Deficit.

All but two of the township trustees have made their reports to the county auditor on the money expended for live stock killed by dogs and have turned the balance into the county dog fund. The fund is maintained by the taxes received from dogs.

Under the law the trustees are compelled to pay for stock killed where the owner makes affidavit that the stock was killed by stray dogs. The list includes chickens, sheep, turkeys, ducks and in one instance a mule was paid for out of the fund.

The county received less this year than usual, going to show that sheep killing dogs were quite active in the county last year. The report is due March 1 and the only two that are out are Washington and Jackson. In one instance—Anderson township—the loss to stock was so heavy that the trustee did not have enough money in the dog fund to pay all the bills and has \$33 outstanding. The Anderson township fund, as reported to the county auditor, contains a balance of exactly one dollar and the shortage of \$32 will have to be paid by the county auditor.

In Posey township during the year the only thing paid out was \$18.75 for twenty-five chickens. The following is the expenditures from the dog fund of the various townships.

Ripley	\$ 61.00
Posey	18.75
Orange	155.00
Anderson	318.00
Rushville	330.10
Center	161.00
Union	140.00
Richland	217.80
Noble	43.00
Walker	18.00

Under the law the trustees can keep no more than \$100 in the dog fund after making their settlement with the auditor. The amounts received by the county ranged from \$21 to \$145.

HOLDS INQUIRY AS RESULT OF RAID

Mayor Attempts to Learn in Private
Investigation Why Ed Wolter
Had so Much Beer.

FREIGHT AGENT WITNESS

A court of inquiry as the result of the raid on the pool room of Ed Wolter was held this afternoon before Mayor Bebout. The investigation was private and it is understood that the chief witnesses were to be Ray Lakin, owner of a dray line, and W. B. Garrigus, C. H. & D. freight agent.

At the raid the police found a large number of bills of lading and with Garrigus and Lakin they expected to ascertain what Wolter was doing with so many shipments of beer if they were for his own private use. The inquiry was conducted by Prosecutor Stevens. No charges have yet been filed against Wolter as a result of the raid.

DOPE ON GAMES STILL HOLDS

Rushville Faces Semi-Finals With
Richmond as Opponent by Virtue
of Win Over Cadiz

BROOKVILLE VS. NEWCASTLE

Locals Win Easy Victory Over
Mooreland 37 to 15.

RUSHVILLE LOSES.

(Special to the Daily Republican.)

RICHMOND, IND., MARCH 6.—RICHMOND DEFEATED RUSHVILLE 35 TO 22 THIS AFTERNOON IN THE FIRST OF THE SEMI-FINALS AT THE DISTRICT BASKETBALL TOURNAMENT. THIS ELIMINATES RUSHVILLE FROM THE TOURNAMENT AND MEANS THAT NEWCASTLE WILL PROBABLY FIGHT IT OUT WITH RICHMOND TO REPRESENT THIS DISTRICT AT THE STATE MEET.

Forenoon Games

Richmond 43; Cadiz 14
Brookville 20; Hagerstown 16.

Last Night's Results

Rushville 37; Mooreland 15.
Newcastle 33; Connersville 11.

(By a Staff Correspondent.)

Richmond, Ind., March 6.—The Rushville high school team entered the semi-finals here this afternoon at two o'clock in the sixth district tournament fully confident of beating the Richmond team, which is the opponent of Rushville by virtue of having defeated Cadiz this morning by a score of 43 to 14.

The game with Richmond this afternoon is the big test for Rushville and a victory means that Coach Burns' team will enter the finals tonight against either Newcastle or Brookville. The four games that have been played including the two this morning were won according to the dope and so far there has been no surprises.

This morning Richmond easily defeated Cadiz 43 to 14 and Brookville did exactly as was expected by winning from Hagerstown, 20 to 16. The Richmond team did not show enough class to throw a scare into the Rushville team and Coach Burns was confident that his team would win over Richmond. The other game this afternoon is between Brookville and Newcastle with the dope favoring Newcastle, although there is a chance for Brookville spilling the dope.

The first half of the Richmond—Cadiz game ended 24 to 5 in favor of Richmond. The first half of the Brookville-Hagerstown game ended 12 to 10 in favor of Brookville. This was the closest game of the tournament so far and was hard fought from start to finish. The teams were evenly matched.

Rushville came out of the Mooreland game last night in good shape. The team had a comparatively easy time in beating this team, the final count being 37 to 15. The first half ended 21 to 7 in favor of Rushville. Mooreland made but four field goals during the entire game. Tittsworth and Stoops led the scoring for Rushville, Tittsworth getting four field goals and Stoops five. Martin came through with three field goals and even Breechisen contributed with two goals. Stoops threw nine goals from free throws.

Newcastle put Connersville out of the running by winning 33 to 11. Connersville held Newcastle in the first half but a spurt near the close left Connersville at the post.

Large crowds are attended the games and the enthusiasm is very high.

STOCKHOLDERS TO RETIRE

Knecht Clothing Company Will Dis-
solve About April 1.

John Knecht, the principal stockholder in the Knecht Clothing company, O. P. C. H. will in the future devote his entire time to the automobile business and the firm will be dissolved. He is now in partnership with Edmund Gartin and doing business under the name of Knecht & Gartin. For this reason he will withdraw his entire investment out of the clothing firm. The dissolution will take place on or about April 1.

MISS DOLLIE LEWIS DIES AT FAIRVIEW

Maiden Woman Expires at Age of
Forty-Two Years Today After
Illness With Cancer.

SURVIVED BY HER FATHER

Miss Dollie Lewis, 42 years old, a well known and highly respected maiden woman of Fairview, died this morning shortly after seven o'clock at her home there after a long illness from cancer. Miss Lewis had twice undergone operations in the hopes of recovering but she gradually grew worse and death had been expected for some time.

Miss Lewis was born and reared in Fairview and was widely known in this section of the county. She is survived by her aged father, William Lewis. The funeral services will be conducted Monday afternoon at two o'clock in the Fairview church and burial will take place in the cemetery there.

CONDITIONS BAD AT MEXICO CITY

Government Lays Law Down to Gen-
eral Carranza in Sharpest Terms
But is Not Optimistic.

HE HOLDS KEY TO SITUATION

(By United Press.)

Washington, March 6.—While it was declared at the white house that no news has been received of a decision of diplomatic corps to leave Mexico City it was admitted that conditions were such that would make a decision of the kind possible without a notice being given.

With the Mexican situation threatening at any moment to reach a critical stage, General Carranza today was the key to its solution. This government has laid down the law to him in the sharpest representations it has ever sent to a Mexican chieftain.

Under foreign government demands for better administration in Mexico, this government hoped the mandate will bring the chief to terms, but is not very optimistic. Carranza was told that the starvation threatening the capital must be released; that controlling the Vera Cruz-Mexico railroad as he does, he has power to alter conditions and that this nation does not approve of General Obregon's plan for leaving the city to its fate at the first riot sign.

James Russell, the five-weeks-old baby of Mr. and Mrs. Ora Cline, living three and a half miles west of Rushville, died of pneumonia at twelve-thirty o'clock today.

TRADING STAMP BILL IS PASSED

Measure Requiring Prohibitive Li-
cense of \$1,000 Ready For Gov-
ernor's Signature.

SUFFRAGE BOBS UP AGAIN

Women Propose Resolution For Con-
stitutional Amendment—Wo-
mens Labor Bill Dead.

(By United Press.)

Indianapolis, Ind., March 6.—Senator Thornton's bill to wipe out the trading stamp business was passed by the house today by a vote of 79 to 7 and sent to the governor.

It requires a prohibitory license of \$1,000 for merchants who wish to engage in the business.

Representative Harvey said that it was time the legislature did something for the merchants who asked the passage of the bill.

The legislature had refused to take a vote on the garnishee bill asked by the merchants. This bill is aimed only at trading stamp companies and would not effect tobacco coupons. Rebates of individuals are not affected by the bill.

Hours of women labor will be unlimited in Indiana for at least two years more for the house today killed the bill which had been so amended that the limit was ten hours a day and fifty-five hours a week. Representative Niblack and others who believe in limiting hours of women labor united to kill the bill after the house had refused to make the limitation stricter.

The house today bunched the remaining Stotsenberg amendments proposed for the state constitution and killed them by unanimous action. The legislature was immediately confronted with the women's suffrage lobby again in a new form. The women's lobby flashed a resolution proposing a constitutional for full suffrage for women. This was intended for introduction this afternoon. It could not be introduced while the Stotsenberg amendments were pending.

Even if this proposed amendment should succeed in this session woman suffrage could not come before the election of 1918 because the constitution provides two assemblies shall approve an amendment before it is submitted to the people.

The women still cling to the faint hope that lay in the Rule limited suffrage measure, a duplicate of the Maston bill which died in the house. They hoped the house would vote on the Rule bill yet today.

Mrs. S. C. Stimson, who held the amendment resolution, also desired a vote on the question of holding a constitutional convention, saying it would aid the women's cause.

For the first time in the history of Indiana legislation the senate last night made possible the presentation of a workingmen's compensation bill for the approval of the Governor when by a vote of 38 to 0 it passed the Sare-Feick compromise bill on that subject. The bill now goes to the Governor, and, it being a party platform measure, there was no doubt among members last night that it will become a law.

The bill provides for the appointment of a board of awards to administer the proposed act, and fixes a definite compensation for injured workmen and a definite amount for his heirs in the event of death. It is made optional with the employer and employee whether they operate under it, but friends of the measure say its provisions are sufficiently desirable to induce both employer and employee to accept it. The compensation bill is the last Democratic platform measure with which the

ONLY NAME OF CITY REMAINS

Nieuport, Pretty Little Place West of Ostend, Joins in List That Has Been Destroyed

SHELLS DESTROYED PLACE

Cats Remain Even When People Left and Now the Place is Swarming With Them

BY WILLIAM PHILIP SIMMS (U. P. Staff Correspondent.)

Flanders, Feb. 15. (By mail to New York)—Nieuport, the pretty little city to the west of Ostend on the Belgian coast, has gone to join the long list of cities that were but are no more. Only the name remains.

Like Pervyse, Louvain, Sermaize, and so many smiling towns of Belgium and France, nothing is left of Nieuport but the shells of what used to be habitations, churches, schools, places of business, theaters and such.

Daily the crack of German shells echo through the debris strewn valleys that used to be called streets and nightly the clatter of collapsing walls and tile roofs, weakened or undermined by the day's shelling are the only sounds to be heard outside the tramp of sentinels or the meow of cats.

Cats? The place seems swarming with them, poor, lean, starving creatures who hide in brick-and-stone littered cellars by day and come out to prow and beg for food at night. Their eyes shine out of the darkness with an almost supernatural luster and in their voices are a quality smacking of ghostly, haunted-frequented places. They scamper out of sight among the ruins if one but says "Boo!" but if you stand still and offer the proper encouragement the drove of cats will approach and rub their arched, though bony backs against your legs, mewing up at you in the most pitiful, beseeching of ways. If you have food with you the appeal cannot be resisted and you share your sliced him, sausages, potted meat or whatever you carry, with the famished pets.

Cats, it is said attach themselves to places instead of to persons. Nieuport proves the saying. When the population evacuated the seaside resort and called their kitties to follow, the kitties remained, deaf to the call. Each kitty had her cosy-corner, her favorite basking place in her own particular dwelling. She came when called and appeared to care for this or that member of the household. She let herself be stroked and she purred back in thankfulness but way down deep in her heart she liked the house more than she did the people inhabiting it. So when the Germans advanced and started to bombard the city, the citizens fled, group by group, until all had gone but three old maid sisters who were evacuated only this week by force. They were found in a cellar, with their 3 cats, the sisters as lean as the cats, the cats as thin as matches.

"We thought the old maid sisters were spies," a British officer told the correspondent. "For after all, it did seem queer to us that they should remain behind in Nieuport after every other single soul had made tracks for France. We placed them under arrest and started to march them off to prison when the cats came out of hiding and mewed and rubbed against the sisters and showed that they knew and liked them. This was a fact in the sister's favor so we took them to the hospital fed them and found out who they were. They were all right and we sent them to the rear. They insisted on taking the cats along and we sent back to get them, carrying a large covered basket for the purpose. After a time the women succeeded in catching the critters and got them in the basket. Then, all of a sudden, the lid flew up like you've seen Jack-in the Boxes do, and out bounded the cats and off through the ruins of the town. The poor old girls cried as though the cats were wayward children and the children their own, but the kitties never came back, at least not for a day or so."

"Are they back now?"
"Sure they are back. I feed them

TRADING STAMP BILL IS PASSED

Continued from Page 1.

Senate has to deal. All of the other platform measures have been passed by the upper house.

The bill was amended to conform to the Democratic caucus action, but it was not changed in any material way from the way that it passed the house some weeks ago.

Following the passage of the compensation measure the senate reconsidered its action of yesterday afternoon and passed the Durham bill for the appointment of a state board of certified accountants. The bill was defeated yesterday afternoon and the vote was reconsidered on motion of Senator McCormick.

The senate passed the Ballou bill for the establishment of a school of mines at Purdue. That measure now goes to the house.

The senate passed yesterday, by a vote of 35 to 8, the state teachers' retirement bill providing for the pensioning of teachers who have taught thirty-five years, the Feick permanent registration bill, which was adopted as a caucus measure, and the house apportionment bill dividing the state into districts for the elections of representatives to the general assembly. A sharp fight was started to defeat the teachers' pension bill, but both Republican and Democratic leaders in the senate spoke in favor of the measure after Senator Fleming had tried to amend the bill to provide that any deficiency in the pension fund could not be restored from the state tuition fund. Senator Ballou opposed the measure on the grounds that it is unconstitutional. Senator White explained that counties might be called on from time to time to levy a tax of 1 cent on each \$100 to raise deficits in the pension fund, but he predicted that demands for such a tax would not be necessary frequently.

Republican senators fought the reapportionment bill passed by the house when the Democrats forced its passage under suspension of rules.

NEW DREADNAUGHTS JOIN RUSSIAN FLEET

Three Sea Fighters Rushed to Constantinople to Help in Attack on

SUPPORTED 6 SMALLER ONES

ENTERS THE NARROWS.

(By United Press.)

London, March 6.—The allied fleet has entered the narrows at the Dardnells and is now bombarding forts on both sides of the stream, the admiralty announced this afternoon. Two Turkish land defenses have been severely damaged and the magazine of one blown up by the warship shells.

(By United Press.)

London, March 6.—That three new Russian dreadnaughts, rushed to completion at the Black Sea shipyards have joined the Russian Black Sea fleet on its descent on Constantinople was the report in admiralty circles today. The admiralty flatly refused confirmation of this story and declined to comment on Bucharest dispatches "that the czar's naval forces in the east are steaming southward to attack the Ottoman capital."

Before tomorrow night, according to Bucharest dispatches today, the Russian Black Sea fleet will be pounding at the Bosphorus port only eighteen miles from Constantinople.

The new dreadnaughts, if they have been completed will battle away at the eastern approaches to Islam's capital with thirty 12-inch guns. Supporting them in the battle are believed to be six smaller Russian battleships.

The Kaiser and His God
By J. Feudner
A great deal has been said and written and published by the British press agents about the Kaiser and his God. The fact is, the Kaiser is a devout Christian and therefore calls upon and relies a great deal upon God. His religious faith is one of the passions of his life, and his pious veneration of sacred things a habit founded upon deep conviction.
Since the beginning of hostilities, the Emperor's words have been more closely scrutinized than ever by his foes. A perfect fusillade of criticism was leveled at him a short time ago by persons whose religious sensibilities had been shocked by a sentence in an address to a regiment. "We shall destroy our enemies," ran the report of the imperial speech cabled from London. "Our old God up there will give us the victory."
The peculiar sounding phraseology generally reported to be used by the Kaiser when referring to God, is all on account of the peculiar construction and sentence formation of the German language. For instance, not long ago at a bazaar held here in Denver for the benefit of the German and Austrian Red Cross, a young lady wore a sash on which was this sentence, literally translated, "I have fear in the dark home to go." But this must be translated, "I'm afraid to go home in the dark." Likewise, the sentence which the Kaiser is alleged to have used, should be translated, "Our ancient God on high will give us the victory."
In my recent article on the Japanese language I demonstrated sufficiently how difficult it is to translate from one language to another, and what a bad job a poor translator could make, especially if he did not understand the language thoroughly.
A peculiarity of the German language is that the deity is addressed with the same title as Mr. Jones or Mr. Smith. The same word which is used in English to address Jones ("Mr.") is used in German to address the deity namely "Herr."
But aside from all this, could it not be possible that the German people and their Kaiser are especially favored by God? For instance, my sister, who wrote me from Germany, and a translation of which was published in the Daily Republican a few days ago, made this significant remark: "We trust that God, who has stood by us so far will help further." This shows conclusively that the German people have evidence enough to believe that God is on their side, and they fervently hope that he will help in the future. All their prayers are to that effect.
When one considers that Germany has enjoyed great prosperity for the last twenty-five years, and has been blessed in all lines of endeavor, it might possibly be true that the Germans, including their Kaiser are a favored nation.
A few weeks ago the news was circulated here in America (cabled from London) under great "scare heads" that Italy had mobilized and was about to enter the war AGAINST THE KAISER. Not more than a few days afterwards Italy was shaken by a terrible earthquake, resulting in great loss of life and property. If the Italians really had any war fever the earthquake knocked it out. It was later reported that the Italian government took strong measures to suppress those Italian war mobs, instigated and fanned by a liberal use of money by the French ambassador. Was the Kaiser's God behind this earthquake to prevent the Italians to make war on Germany? This inference may easily be drawn.

Winter Flies

The winter season, naturally, is not the period in which most persons are likely to take measures to prevent the breeding of flies. In the summer, when the flies are thick, the wish will be frequently hard that preventive precautions had been taken. In the course of an inspection, January 7, by the sanitary bureau of New York, in response to complaints regarding a heap of manure, dirt and rubbish not far from a public school in a crowded district of the city, a rather startling state of affairs was revealed. The heap of manure was found partly covered with tar paper and rubbish in which, despite the cold weather prevailing—and there had been not long before a series of days with the temperature well down toward zero—flies were observed to be actively breeding. The Bulletin remarks, "This emphasizes the importance of properly caring for horse manure throughout the year and teaches anew why the filthy fly is always with us." Until definite precautions are taken during the winter to prevent the accumulation of heaps of filth and particularly piles of horse manure, in exposed situations under conditions favorable for breeding, the fly will probably continue to be the nuisance and the serious danger to health that it has always been. But it must not be forgotten, says The Journal of the American Medical Association, that whenever we are ready to get rid of the fly nuisance our boards of health can accomplish this purpose without enormous trouble probably after the first year without much additional expenditure in the budget, and with little annoyance to the public generally. When it is recalled how much the absence of this undesirable pest would mean for children alone in our crowded city life it should not be long before there is a general awakening to the necessity of taking the now well-recognized precautions during the winter that will secure great limitation, if not entire obliteration of fly breeding.

RESCUERS RENEW THEIR WORK

(By United Press.)
Layland, W. Va., Mar. 6.—Forty-seven coal miners, alive and well after being entombed for three days and three nights, were found early today in mine No. 3 of the New River and Pocahontas Consolidated Coal company where an explosion early last Tuesday trapped 182 miners.

Weakened by hunger the men told rescuers that they believed more men were living in a remote chamber. A crew equipped with oxygen helmets began pushing its way toward that point.

The World's Gold Pouring Into America

The United States has its first great victory to record as a result of the war in Europe. It is a peaceful victory that will shed its practical benefits into every channel of American industry and commerce.

For the first time in many years the balance of gold exchange is in favor of this country. In other words, European purchases of American commodities have greatly exceeded American purchases of European commodities during the past year. This is a condition which must benefit the United States because Europe's purchases must be paid for with European gold. This gold coming into the United States will be distributed through all trade channels. Such a situation should result in great business prosperity.

Read THE LITERARY DIGEST of March 6th (on sale everywhere to-day) and you will find a complete description of this important development, including a reflex of public opinion as shown by the newspaper press of Europe and America, regarding it. THE DIGEST makes plain to every reader the tremendous importance of this rare situation in its relation to the business conditions of the United States.

Has Japan Designs Upon China?

THE LITERARY DIGEST of March 6th, also sheds a flood of light from authoritative sources upon this phase of world-politics in the Eastern Hemisphere which had nearly escaped comment because of public attention being focused upon Europe and the war.

If you would have an interesting, impartial chronicle of the war in its many-sidedness, by all means join the million American readers who eagerly read THE LITERARY DIGEST each week.

It is not only for war-news that it is so widely appreciated in American homes, but because it deals with all other news of importance in the fields of foreign and domestic Politics, Science, Invention, Religion, Literature, Music, Drama, Sports, Trade, and Commerce.

\$1,500 OFFERED FOR UNBORN COLT

This Sum Refused Owner of Lady Maud C. for Her Foal—Pacer Formerly Wintered Here

DICK WILSON ONCE DROVE HER

Pana, Ill., Mar. 6.—Thomas Kiser of Stonington, owner of the world's pacing team, Lady Maud C. and Hedgewood Boy, today received and refused the phenomenal sum of \$1,500 for the unborn colt of Lady Maud C. L. C. Shuler, record of Peter McCormick, with a record of 2:04 trotting made the offer. Peter McCormick is sired by Peter The Great and is the father of Lady Maud C.'s unborn foal. This is said to be the highest offer ever made in the United States. Shuler said today he had shipped Peter McCormick to San Francisco, where he will start this spring in the \$20,000 stallion trotting stake. Kiser is owner of Noretta, dam of Lady Maud C., and he has shipped this famous old mare to Lexington, Ky., to be bred to Peter The Great.

It will be recalled Lady Maud C. and Hedgewood Boy were formerly in Dick Wilson's stable and were once wintered here. They were also shown at the horse show here on one occasion.

The Daily Republican

"The Newspaper Everybody in Rush County will Eventually Read"

To be a success must be well advertised. The more people who know of a sale the larger the crowd, resulting in more competitive bidding, higher prices for the stuff and more dollars in the holder's pocket. The Daily Republican goes into every town, community and neighborhood in Rush County, and has more paid subscribers than all the rest of the Rushville papers combined. Right now everybody is looking for and reading sale notices. They want to buy. The Republican's "Public Sales" advertisements tell them who is having a sale, when and where. Sale bills will always be used but their number is decreasing. Newspaper advertising is found to reach more people and when they are in a mood to read, and is getting more popular all the time. When a man holds a sale he expects to spend a few dollars in advertising it, but he wants results. Come in; we can "deliver the goods." "Red Head" sale bills and display spaces at a reasonable rate, and we give you prompt service.

LADIES! DARKEN YOUR GRAY HAIR

Look years younger! Use Grandmother's recipe of Sage Tea and Sulphur and nobody will know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two it becomes beautifully dark, glossy, and abundant.

WILL DECORATE FOR AUTO SHOW VISITORS

Handsome decorations will be a large part of the automobile opening week given in Indianapolis, March 8-13, by the Indianapolis dealers and factories. The displays will be held in the various salesrooms and all sorts of motor vehicles and accessories will be shown. The committee of decoration consists of L. L. Banford, John B. Orman and L. S. Shoup. Indianapolis commercial and civic bodies are interested in the show. The Indianapolis business houses will be decorated appropriately during the week.

RALSTON TO ASSIST

State Executive is Very Much Interested in Auto Affairs.

Governor Samuel M. Ralston will assist in the ceremonies to the automobile trade association, opening week to be held in Indianapolis, during the week of March 8-13, the exhibits being held in the various salesrooms. Since the governor became a motorist during the past year, he is much interested in automobile affairs—interested as an automobilist, as well as a public officer.

He has assured the automobile men that when he can be of assistance to them in furthering the industry, he will be glad to put his shoulder to the wheel.

MOTOR CLUB SECRETARY OF HELP TO MOTORISTS

W. S. Gilbreath.
Much work for good roads in Indiana has been done by W. S. Gilbreath, secretary of the Hoosier Motor Club, who will further push his propaganda for better roads in Indiana during the automobile opening week, March 8-13 at Indianapolis. Gilbreath has interested himself, as a representative of the Hoosier Motor Club, in roads, which will benefit every farmer in the state. He is also interested in the Lincoln Highway, which passes through Indiana, and the road lately suggested running from Chicago through Indiana to Miami, Florida. Autos of all sorts will be displayed during the opening week in the various salesrooms.

Joe Birmingham, However Believes Cleveland Team Will Get Out of Last Place This Year

THREE VETERAN PITCHERS

Infield Will be Changed and Five Are After Outfield Jobs—Has Promising Recruits

(U. P. Staff Correspondent.)
Cleveland, (O., Mar. 6.)—While a majority of big league managers are figuring out ways and means of jimmeying their teams into first place or thereabouts Joe Birmingham, manager of the Cleveland Indians, erstwhile Naps, is facing the problem of lifting his team out of last place in the American League.

Birmingham has entered into the pleasant though somewhat perplexing pastime, with the zest that always marks the doings of a youthful manager, and hopes to land his team at east the fifth berth.

He started his campaign this winter by eliminating from the team several players whose views on running a ball club did not coincide with his own. Ole Olson, utility infielder was enticed to the Cincinnati Reds, Napoleon Lajoie was sold to the Athletics and Doc Johnson first baseman, failed to find his name on the team roster when the list was made public.

The Indians will start the season with only three veteran pitchers, unless another is obtained by trade or purchase before the middle of April. Willie Mitchell, a southpaw and Fred Blanding and Bill Steen, right-handers are the vets.

Guy Morton, obtained from the Waterbury club last season, and who bears the earmark of a future great, appears to be the pick of the younger pitchers. Sam Jones, a member of the Cleveland association club last season; Coumbe, Walker, Bowman and Harstadt are the other pitchers.

Several infield changes will be apparent when the team takes the field for the first game of the season. Bill Rodgers, with Portland, Pacific coast league last season will replace Lajoie second base. Roy Wood, who showed good form last season probably will cover first. Barbare, recruited from New Orleans, or Terry Tuner, will hold forth at third.

Wambganns, Cedar Rapids short-stop last season; Shields, Waterbury first baseman and Thomas, Omaha 1st baseman, will fight it out for the utility jobs, Barbare or Turner, having the first call, of course, if either fails to break in as a regular.

Five outfielders will try for jobs, manager Birmingham among them. Iow Jackson will hold forth in right field and will again try to nose out Ty Cobb in the race for league batting honors. He hopes to succeed this year after many vain efforts. Elmer Smith, a Waterbury recruit, will play centerfield. Smith played thirteen games with the team last fall and batted .327. He is one of the best outfield prospects the Cleveland team has picked up in years. Graney will play left field and Leehold and Birmingham will be the extra outfielders.

Steve O'Neill and Ben Egan, the latter with Baltimore last season, will do the bulk of the catching. Devogt and Billings, with the Cleveland association team last season, will fight it out for the third string job. Lee Fohl, veteran catcher will instruct the young pitchers.

The Cleveland team may be the dark horse of the American league race. If Smith, Barbare and Rogers come through in style and two of the recruits pitchers deliver the goods the club should make a hot fight for a first division berth.

MOTOR—The motor is 3 3/8 x 3 3/4 inches. Cylinders are cast en-bloc. Motor develops 27 h. p. on brake test.

MOTOR SUSPENSION—Supported on side rails of frame.

CYLINDERS—Best grade of Grey Iron carefully annealed and tested before and after machining. Connecting rods drop forged from best grade 40 carbon open hearth steel, double heat-treated.

CRANKSHAFT—Drop forged, from 40 carbon open hearth steel, double heat-treated; has two main bearings.

CAMSHAFT—Driven from crankshaft; both crankshaft and camshaft have improved oil retaining device.

LUBRICATION—Lower half of crank case forms oil reservoir. Lubrication system is splash. Oil is forced directly to gear case and overflows into crank case. Lower end of each connecting rod is provided with a dipper which passes through a trough full of oil at each revolution. Oil level is constantly maintained regardless of motor speed or grades.

Circulation is by thermo-syphon system. All water passages of large size and free from steam pockets.

IGNITION—Three sources of current for ignition, starting and lighting are generator, storage battery and an extra set of dry cells for emergency use.

STARTING AND LIGHTING—A thoroughly efficient starter acts directly on the crank shaft without intermediate gears. The Regal starter has from forty to sixty fewer parts than others.

Generator delivers sufficient current for all lamps at 12 miles per hour. Above this speed the excess charges the battery. Starter spins the motor 200 R. P. M.

CLUTCH—Cone with leather facing. Bearing is die-cast of special bearing metal. Clutch throw-out operates with ball bearings.

DRIVE SHAFT—Is mounted on universal joint at front end. Drive shaft is enclosed in a torsion tube with ball joint at the front end pivoted to a cross-member of the frame.

TRANSMISSION—Selective type, three speeds forward and reverse. All shafts mounted on roller bearings. Removable cover plate gives access to every part.

REAR AXLE—Full floating on roller bearings. Housing has removable cover plate making it easy to take out the complete differential. Gear ratio 4 to 1.

SPRING SUSPENSION—Front springs are semi-elliptic, 34 inches long x 1 3/4 inches wide. The rear are cantilever 40 inches long x 2 inches wide.

CARBURETION—A 1 1/8 inch Stewart special carburetor of the float-feed automatic type is used. Gasoline adjustment on the dash.

FENDERS—Crown type rigidly attached to main frame. Running boards fitted with aluminum plates in front of doors.

WEIGHT—About 1800 pounds with equipment.

TIRES—30-inch x 3 1/2 inch, clincher demountable. One extra rim.

FRONT AXLE—I-beam drop forged. Axle and yoke are provided with phosphor bronze bushing. Steering rod is placed behind the axle.

BRAKES—Two sets—service brake operated by foot pedal is external contracting; emergency brake operated by pedal is internal expanding.

MAJORITY IS DEMORALIZED

This is Outstanding Feature That is Noticeable in Closing Days of Legislature.

LIKE SHIP WITHOUT RUDDER

Determined, Well Organized Minority in Some Instances Put Democrats to Rout.

(Special to the Daily Republican.)

Indianapolis, Ind., March 6.—The big, outstanding feature of the legislative situation during the closing days of the session is the complete demoralization of the Democratic majority in the House. It is not even like a ship without a rudder; there is no rudder and there does not appear to be masts or sails or motive power of any kind or description. The majority is running wild and none of Democracy's leaders—not even Tom Taggart or Governor Ralston—seems to have the least bit of an idea as to where they are "at." The "blow up" came when the Bell finance bill, on which the Taggart organization had centered its whole efforts, was put to death in the House the other day as a result of the activity of a determined and well organized minority. After this blow had been delivered Taggart evacuated the state house and meandered back to French Lick and Joe Bell's minions faded away, gritting their teeth and swearing eternal vengeance on the faction of the Democratic party which is opposed to the demination of Taggart Bell, Ralston and others.

Representative Branaman has practically been deposed as "floor leader" and Representative Sare of Bloomington is now trying his hand at this work. It is needless to say, however, that he is finding the job just as difficult as did Branaman and there is a possibility that the majority may have to "swap hosses" a time or two more before the session ends.

When the history of the 1915 General Assembly of Indiana is written a large chapter or two will have to be devoted to the manipulations and activities of Governor Ralston. It is rather significant, to say the least, that a number of the measures in which the governor of the commonwealth was apparently vitally interested were pronounced undesirable and in some instances vicious by the Democratic majority in one house or the other of the legislature.

The theory of state government is that the executive branch of the government shall not interfere with the workings of either the legislative or judicial branch. Has Ralston followed this course?

What about the Bell bill? Did he try to dominate, in this instance, the legislative branch of the state government? Wasn't he rather free in his public expressions of approval of this measure which was defeated in the House by a vote of 91 to 2? Did his interests in this measure reach the point where he attempted to use the "big stick" on Democratic representatives who were inclined to oppose this bill?

How about the "felons' relief bill?" Was the governor content to permit the legislature to handle this vicious piece of legislation without suggestion from the executive department? Is there anything in the report that the governor made efforts to influence Democratic members of the House against their judgement of this measure?

Possibly the friends of the governor might be able to justify such a course as this—possibly they may hold to the notion that it was absolutely necessary that some one in authority try to take hold and guide the Democratic in the course it should go but how about the question of consistency?

The representatives of the wo-

men's organization who have been working night and day trying to put through a limited suffrage bill appealed to Governor Ralston but according to the leaders of the women, the governor explained to them that the executive branch of the state government did not dare encroach on the rights and prerogatives of the legislative and judicial branches. Very beautiful, indeed, but slightly at variance with the policy adopted toward the Bell bill and the "felons' relief bill" wasn't it?

The Democratic legislators are now "in bad" with organized labor. The majority in the Senate, the other day, got behind a bill offered by Scotty Chambers, Sixth district Democratic chairman, relating to the printing of supplies for the state and its institutions. The leaders of organized labor are now wondering whether Chambers, in this work, acted in his capacity as a state senator or as Democratic district chairman or both. Leaders of organized labor made it plain that they were bitterly opposed to this bill as it would permit public printing to be done in nonunion shops. However, the Democrats did not pay a bit of attention to this complaint; they voted for the bill to a man while every Republican member of the Senate voted against it. The Republicans in the House are against this bill.

A paragraph in this bill reveals the Democratic idea of proper business management. After the contract for the public printing has been let for a two year period to a responsible manufacturer and after he has executed a sufficient bond, it will be possible for the authorities to purchase supplies anywhere else in the state if at any time they find any one who will sell them for less than the contract price. How many substantial business men would want to transact business on such a basis as this?

Gil Hendren, who happens to look a little like Bill Bryan, at present is holding down a very fat state office, reigning as head of the accounting board. Apparently Hendren or his friends have lately been giving some thought to the future; thinking of the time when his term of office must end. That it must end is certain as there comes and end to all things. Apparently Hendren and his friends were more or less certain that the Democrats were going to be shoved into the discard in Indiana next year, with the result that Hendren would not be reappointed to the fat job that he now holds. What more natural then that Hendren's friends should remember that Tom Brolley did two years ago when he had the notorious 1913 legislature extend his term of office two years. As a consequence, a bill was introduced in the legislature, the main object of which to extend Hendren's term of office for two full and substantial years. It goes without saying that this bill will find rough sledding in the House. The Republicans, with their minds filled with visions of the future, will oppose this bill while about 20 Democrats, imbued with notions of honesty and decency in the conduct of public business, will refuse to stand for this remarkable undertaking.

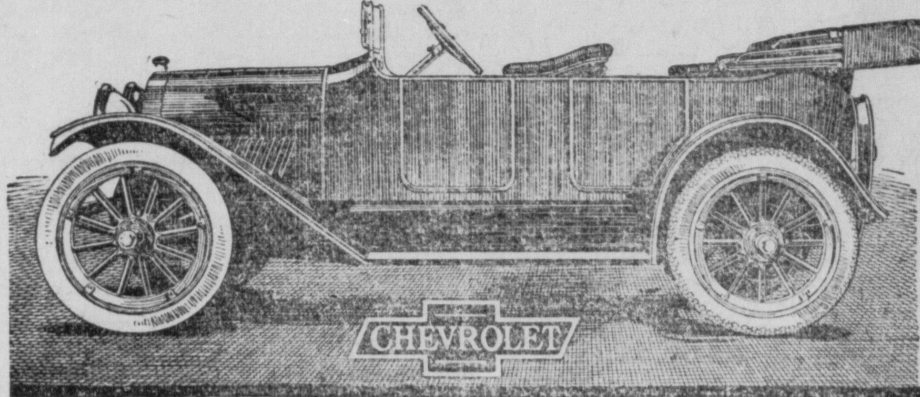

Perhaps Hendren should not be criticized too severely for this move. Since he looks like Bryan possibly he possesses some of Bryan's traits—his love for office, possibly.

It has developed within the last day or two that the Democratic ma-

The House the Red Jacket Saved

Read This Letter:
"Several years ago I called on Lane & Evans to buy a pump and they almost forced me to buy one of your Fig. 28 Red Jacket Double-Acting Force Pumps and fifty feet of hose when I only intended to buy a cheap set length pump. Mr. Lane put up such strong argument on "fire protection" that I followed his advice and bought the Fig. 28, little thinking that it would be of any service to me in that respect. Shortly after the pump was installed, my barn caught fire and had it not been for this pump and hose and the thoughtfulness of Mrs. Barnett, my barn, house and all buildings on the place would have been destroyed."

Don't Pass Up the Comforts and Pleasures of Life

You have seen the museum mummy—take a hunch from him. He hasn't had any pleasure for over 5,000 years. He had his opportunity—did he get his share? Do you? Buy what you need and make life a pleasure to yourself and family. There will come a time when you can't. Ask the mummy, he knew once—did he enjoy life to the full extent as it was intended for him to do? He won't answer—it's up to you. For instance, if you need a New Storm Buggy or any other kind of a buggy, why don't you buy it and buy it now? We have plenty of them and we want to sell them. We have every style that was ever made, all colors of paint, all kinds of combinations. The man that deprives himself of all these comforts of life may leave a bigger tombstone to mark the hole he is finally forced to crawl into but he is a mummy all the years of his life. So get busy, buy yourself a buggy, buy the boy a buggy and get what pleasure you can out of life now. Next year may be too late. Don't forget our Opening on March 12-13. Come in and have a good time with us and don't forget to buy what you need to make life worth while. You will be a mummy soon enough.

MEAT CAUSE OF KIDNEY TROUBLE

Take a glass of Salts if your Back hurts or Bladder bothers—Meat forms uric acid.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or side, headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. The famous salts is made from the acid grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in uric acid so it no longer irritates, thus curing bladder weakness.

Jad Salts is inexpensive: cures, cures, and makes a delightful effervescent lithia-water drink.

chine is making a desperate attempt to use the legislative apportionment bill in an attempt to line up support for the bill to lengthen the term of office of Gil Hendren. Legislators have become panicky when they learned that changes that would result in a political upheaval in their district and at once, it is said, intimations have been forthcoming to them that possibly their districts might be fixed up to their liking if they could see their way to support the Hendren bill. It certainly is going some when the interests of the whole Democratic party can be jeopardized in the interests of an individual office holder. This is but another indication that the Democratic machine is bound to have its own way if it can possibly find a way to accomplish the trick. So far as is known, this is the first time in the political history of Indiana that a "gerrymander" measure was used to force through the legislature, a piece of undesirable, personal legislation.

to Indianapolis to the effect that the Democratic field examiners, attached to the state board of accounts, are spending a large part of their time in boosting the candidacy of William H. O'Brien for the Democratic nomination for governor. It is said that these employees of the state of Indiana are not the least bit backward in their work; that they are openly announcing wherever they go that "the organization is for O'Brien." Of course, as far as practical results are concerned, this does not make much difference for the reason that no one seems to care who gets the next Democratic gubernatorial nomination as it is generally looked upon as an empty and valueless honor.

Oliver Plows

It is a fact that every word we say about the No. 11 Oliver Sulky Plow is true, and if you have ever owned one you know we can't speak too well for this OLIVER SULKY. It is the best plow for any soil, at any time and under any conditions, that is manufactured today. Its construction is simplicity in every detail; hence it is light in weight. It is built to hug the ground; it is the only plow which successfully backs furrows, turns square corners, right or left without raising the base, and is acknowledged to be the lightest in draft and turns the soil in better condition than any other sulky plow. And I hereby challenge any manufacturer or dealer for a fair field trial that the No. 11 OLIVER SULKY is lighter in draft, will turn the soil in better condition, turn all trash under better and leave your ground in better condition than any other Sulky Plow manufactured.

We have a good stock of Oliver Sulky and Walking Plows and Repairs on hands, and invite you to call and see me, and get prices before you buy.

FRENCH SHIP AFIRE AT SEA

Four Steamers Rush to Assistance
of LaTouraine, Which Has 284
Souls Aboard

700 MILES OFF FRENCH PORT

On Her Passenger List Are Five
American Doctors and Ten
American Nurses

(By United Press.)

London, March 6.—The French two-funnelled steamer La Touraine carrying 84 passengers and a crew of 200, is on fire 700 miles west of the French port of Brest according to a wireless to Lloyds at 10:25 a. m. today. Four steamers are hurrying to her assistance.

The message came from a wireless station on the west coast of Ireland. Her owners, the Compagnie Generale Trans-Atlantic gave out the following statement:

"The La Touraine, New York to Havre, is afire off the coast of Ireland. She was due at Havre tomorrow, consequently she can not be in great danger owing to her nearness to the English coast. There is plenty of help very near her. The White Star liner Arabic and other vessels are rushing to her assistance. The only news we have received is from the Zalentia wireless station."

The La Touraine sailed from New York February 26. On her passenger list are five American doctors and ten American nurses bound for French ports. The remainder of her passengers consisted largely of Montreal people whose business demanded their attention in France and a number of French reservists who are going to join the colors.

New York, March 6.—Practically all of the first cabin passengers are residents of Montreal, according to the New York offices of Compagnie Generale Trans-Atlantic. The general agent of the French company, Fauguet is aboard.

In addition to the American nurses whose names were published in London dispatches, were Mrs. Alenia M. McCormick and Florence Gordon members of the American hospital unit.

NOT SPENDING THE MONEY ON HIS SON

Riley Stewart Alleges Divorced Wife
Uses Sums Court Intended For
His Boy.

WANTS DECREE MODIFIED

Paying support money at the rate of \$3 a week to his divorced wife for the support of his son, and \$2.50 additional a week when the boy is attending school, has become monotonous to Riley Stewart and he has filed a petition against Minnie Stewart, asking that a divorce decree be modified.

Stewart has been paying these sums ever since September 26, 1905, at which time a divorce was granted. The decree calls for the payment of \$3 a week for the support of Lowell Stewart, and the boy is to get an additional of \$2.50 while going to school. Stewart asserts that the boy is not going to school and that his divorced wife is using the money for her own personal needs instead of spending it on their son.

LITTLE HOPE FOR WOMEN'S HELP

"Drys" Here Feel it is Practically
Assured There Will be no Suffrage
Legislation.

WOMEN LOSE IN TEST VOTE

They Are Still Confident, However,
and Insist on Ballot on the
Rule Measure.

"Dry" advocates here whose hopes were aroused two weeks ago by the passage, almost unanimously, in the state senate at Indianapolis of the Maston limited woman's suffrage bill, now hold there is little reason to believe that the aid of the women of Rushville may be expected when the local option election rolls around Tuesday, March 30, because limited suffrage legislation in the legislature is as good as dead now.

Woman suffragists who have been staying with the legislature ever since the fight has been on succeeded in bringing the question before the house, although not directly, and the house registered its disapproval of woman's suffrage. But the women are still fighting, according to word from Indianapolis, and will not give up until the legislature adjourns sine die Monday night.

The only hopes of the suffragists now lies in the Rule bill, identical to the Maston bill, which has reached third reading and which the suffragists have demanded be handed down by Speaker Bedwell in the house for a test vote.

Although the Maston bill, passed by the senate, which has been held in the house judiciary A committee is doomed to remain in committee the rest of the session for late Thursday afternoon the house voted, 53 to 41, to lay on the table the resolution that the committee should report the Maston bill out to the house Friday morning at ten o'clock.

The request that Speaker Bedwell hand down the Rule bill in the house was backed by the Legislative Council of Indiana Women, which has been waging the fight, and Dr. Amelia Keller, of the Woman's Franchise League of Indiana.

"In asking the Speaker to hand down the Rule bill, we are simply following out the policy as outlined by the 50,000 women throughout the state, and it would be impossible to get a referendum vote on it by telegrams. I am also following out the advice Governor Ralston gave to me when he said, 'Continue the fight on down the line,' said Mrs. S. C. Stimson who is at the head of the steering committee.

"I believe the majority of the senate is in favor of suffrage in spite of all the talk as to their insincerity in passing the Maston bill.

"We have been told this morning since entering the statehouse that men who did not like to vote to force out the Maston bill would vote favorably if there was a direct vote on the suffrage. We believe there have been several times since the opening of the legislature when we had a majority in the house, but because of the status of some of the bills being pushed by the representatives they felt they could not vote for it yesterday.

"The women of the state have given instructions as to how the work should be carried on and the legislative council is being guided by their decisions which were indorsed by men at home interested in the suffrage measure, and especially in its relation to the Democratic party. Hundreds of clippings have come to the office, taken from Democratic papers, which are in favor of suffrage and urging its enactment into law."

Chance of a Life Time To Get This Famous Hoosier Kitchen Cabinet

SAVE
\$2.50

Beginning TODAY, for one week only, The Hoosier Manufacturing Company permits us to sell the "WHITE BEAUTY" at \$2.50 less than the low cash price established by the Hoosier Company. Regular Hoosier prices are remarkably low. This reduction means an unheard-of bargain. 800,000 Hoosier Cabinets have been sold. "WHITE

BEAUTY" is the finest Hoosier made. To double the sale of this one cabinet quickly, the Hoosier Company authorizes this sale in 1000 picked towns. This is truly the chance of a lifetime for a few women only. Our allotment is strictly limited.

"White Beauty" delivered for \$1.00

Then \$1 weekly soon pays the balance. Your money back if you're not delighted with it. No extra fees. No interest. Just the cash price less \$2.50.

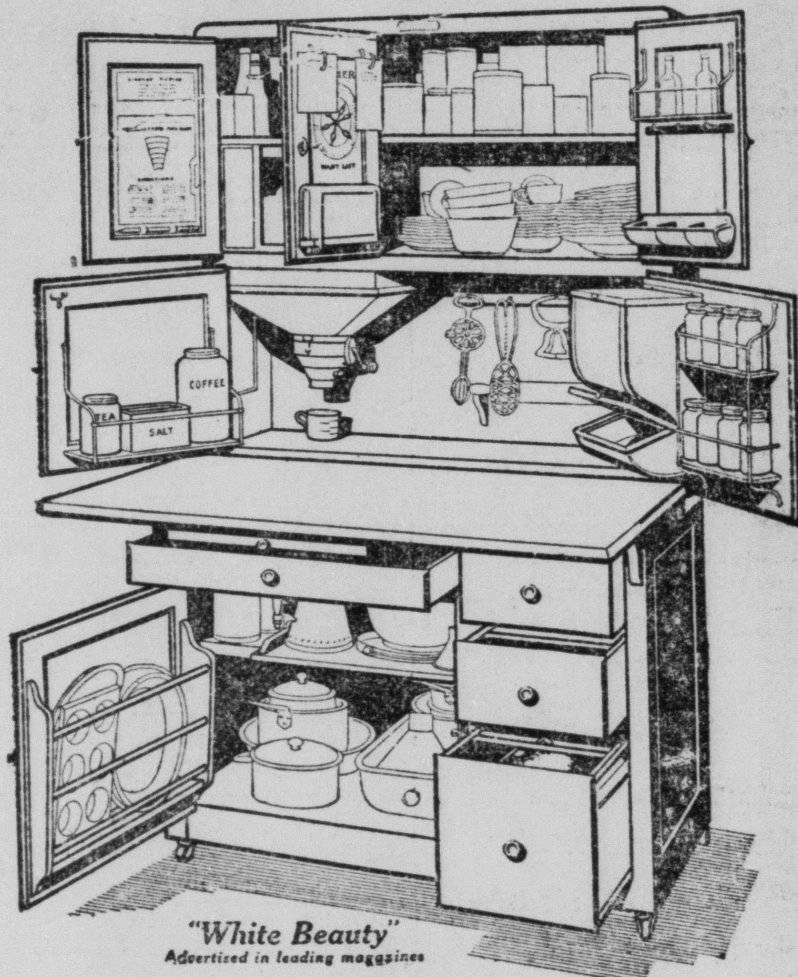

Saves Miles of Steps for Your Tired Feet

You now must carry things from your cupboard and pantry to your table and back again at every meal. This means miles of steps. The Hoosier saves all these because it combines everything at your fingers' ends. You can sit down in front of the Hoosier and do nearly all your work. You save energy by saving steps. You have more leisure.

Has 40 Labor-Saving Features—17 New

This "WHITE BEAUTY" gives you a real scientific kitchen. You can put 400 articles in this new Hoosier, every one at your fingers' ends.

The cabinet includes the patented shaker flour sifter—only sifter made that shakes flour through instead of grinding it. It also has a complete accounting system; a cook-book holder that keeps your book always open in front of your eye; Mrs. Christine Frederick's Food Guide that answers the question, "What shall I have for dinner?" The new all-metal bread and cake box has double capacity, due to improved arrangement, and the work table is of pure aluminum.

"White Beauty"
Advertised in leading magazines

Take Five Minutes to Decide Now

Come in TODAY — examine these new Hoosier carefully—then decide whether you want to buy now while you can save \$2.50, or later when you cannot buy below the regular set prices; decide whether you can afford to waste the energy you now spend in walking in your kitchen, when a single dollar will bring you the Hoosier tomorrow.

Remember—that the new Hoosier Club may be entirely

filled the first or second day of this sale. Come at once and enroll your name.

Remember — that after this sale the "WHITE BEAUTY" goes back to the regular price.

Try the Hoosier in your kitchen. Then, if you will part with it, we will gladly refund your dollar. Come early. Other women, too, are making up their minds now.

THE GEO. C. WYATT & CO.

TO THE PUBLIC: We authorize this sale, limited to "White Beauty" Hoosier cabinets, at \$2.50 less than the fixed cash price of these cabinets, this week only. THE HOOSIER MFG. CO., New castle, Ind.

PITTSBURGH BANK CLOSES ITS DOORS

Officers and Directors of German
National Identified With Pitts-
burgh Brewing Co.

THE BUSINESS CURTAILED

Pittsburgh, Pa., March 6.—The German National bank of Pittsburgh did not open its doors for business Thursday. A notice on the door said it had been closed by order of the controller of the currency.

Officers and directors of the German National are identified with the Pittsburgh Brewing Company, whose securities recently have suffered heavily on the Pittsburgh Stock Exchange because, it was said, of the enactment of prohibition laws in West Virginia and the extension of local option in eastern Ohio, territory in which the brewing company formerly did a large business.

A. A. Fraenheim, vice president of the bank, is a director in the Pittsburgh Brewing Company, and E. J. Vilsack, a director in the bank, is vice president of the brewing company.

The German National was one of the member banks of the Pittsburgh Clearing House Association. Little excitement attended the closing of the institution, although a large crowd gathered in front of the

SALOON MEN ARE PICKED ALREADY

Said That Six Out of Seven Men,
All of Whom Are Democrats,
Will Get Liquor Licenses.

IN CASE CITY GOES "WET"

They Are Bearing Expense of Cam-
paign and Circulated Petitions
For Signatures.

The "slate" has been prepared, according to the best authorities, and if it were necessary, it would be possible to pick right now the six men who are the chosen half dozen of the Democratic organization who are to get the saloon licenses in Rushville in case the city goes "wet" at the local option election to be held here Tuesday, March 30.

Men who are said to be picked in advance for licenses are John Kelley, former city street commissioner under the Black administration and one-time saloon keeper in Rushville; "Jim" Smith, who had a saloon here the last time Rushville was "wet"; James (Whitie) Barrett, former saloon keeper who now runs the Eagle Cafe; August Roth, former saloon keeper, who is now operating a pool room on the south side of the public square; Eddie Wolter, former saloon keeper and now pool room owner, whose place was raided Thursday night by the police, and either Tom Evans or John Gantner, both prominent in the Democratic organization here.

Those who have been watching the situation closely, feel assured that these are the men who will hold the saloon licenses in Rushville if the city goes "wet." They have always stood with the Democratic party. A majority of the members of the county board of commissioners, who grant the licenses are Democratic.

It is known to be the case that the men who have picked to get the benefits if the city goes "wet" are standing the expense of the campaign for an election; that they have, in fact, been assessed a certain amount each to pay the necessary bills. It is said they are paying out this given sum of money with the expectations, of course, that it will all come back, and more too, in case the "wets" are victorious in the coming election.

The story that six out of the seven men mentioned will get the licenses in case Rushville goes "wet" is removed from the field of fiction when it is considered that these men have been bearing the brunt of the work necessary toward having an election called for Rushville. Practically all of them circulated petitions for signatures to call an election and they were witnesses last Wednesday when the commissioners considered the petition, witnesses to swear to the signatures of a number of persons which were questioned.

One Allegation in Divorce Complaint
Filed by Osia Wingate.

Alleging that his wife was guilty of cruel and inhuman treatment, Osia Wingate filed suit today for divorce from Bessie Wingate. The complaint asserts that Mrs. Wingate refused to keep house and would not get his meals. They were married November 25, 1911, according to the complaint, and separated August 16, 1912. He alleges that she would leave home and be gone long periods at a time. On the final separation, he alleges that she wholly abandoned him and they have not lived together since. FIND NO EVIDENCE AT STORAGE PLACE

Police Raid Harry Pea's Second
Hand Store Friday Afternoon
Suspecting "Blind Tiger."

IS NEAR ED WOLTER'S ROOM

The police raided the second hand storage place conducted by Harry Pea in West Third street yesterday afternoon late, but failed to find any evidence of a "blind tiger." The police went to the place about four o'clock yesterday afternoon and a complete search failed to produce any evidence.

The owner did not object to the police going through the place and he assisted them through the building. The police have heard rumors concerning the second hand store and a search warrant was obtained in police court. The second hand store is located only a few doors west of the pool room conducted by Ed Wolter, which was raided Thursday night.

BURGLAR MAKES VERY SMALL HAUL

Enters L. H. Havens Grocery
Through New Addition and Steals
\$2 From Cash Register.

NOTHING ELSE MISSING

The L. H. Havens grocery, 701 North Main street, was entered last night and two dollars taken from the cash register. Entrance was gained by smashing a rear window and then unlocking it. A new addition is being erected at the back of the store and the burglar went in through this.

Nothing else in the store was touched and the robber was evidently after money. Chief Rosencrance passed by the store about ten-thirty last night but did not see anyone around the place. The burglar's trucks over a pile of flour sacks were noticeable this morning.

The funeral services of Harry Lakin will be conducted Sunday afternoon at two o'clock at the late residence in North Main street by the Rev. C. M. Yeocum. Burial will take place in East Hill cemetery and will be in charge of the Red Men.

The remains of Edward Abernathy who died in Indianapolis, were brought here at noon today and taken to the home of his brother in Homer. The funeral services will be held Sunday afternoon at 2 o'clock in the Pleasant Ridge church.

REPORT ON LOSS FROM DOGS MADE

All But Two Township Trustees File
Statements With County Audi-
tor For Year.

\$33 SHORT DOWN IN ANDERSON

Sheep-Killing Dogs Are so Active
That County Will Have to
Make up Deficit.

All but two of the township trustees have made their reports to the county auditor on the money expended for live stock killed by dogs and have turned the balance into the county dog fund. The fund is maintained by the taxes received from dogs.

Under the law the trustees are compelled to pay for stock killed where the owner makes affidavit that the stock was killed by stray dogs. The list includes chickens, sheep, turkeys, ducks and in one instance a mule was paid for out of the fund.

The county received less this year than usual, going to show that sheep killing dogs were quite active in the county last year. The report is due March 1 and the only two that are out are Washington and Jackson. In one instance—Anderson township—the loss to stock was so heavy that the trustee did not have enough money in the dog fund to pay all the bills and has \$33 outstanding. The Anderson township fund, as reported to the county auditor, contains a balance of exactly one dollar and the shortage of \$32 will have to be paid by the county auditor.

In Posey township during the year the only thing paid out was \$18.75 for twenty-five chickens. The following is the expenditures from the dog fund of the various townships:

Ripley	\$61.00
Posey	18.75
Orange	155.00
Anderson	318.00
Rushville	330.10
Center	161.00
Union	140.00
Richland	217.80
Noble	43.00
Walker	18.00

Under the law the trustees can keep no more than \$100 in the dog fund after making their settlement with the auditor. The amounts received by the county ranged from \$21 to \$145.

HOLDS INQUIRY AS RESULT OF RAID

Mayor Attempts to Learn in Private
Investigation Why Ed Wolter
Had so Much Beer.

FREIGHT AGENT WITNESS

A court of inquiry as the result of the raid on the pool room of Ed Wolter was held this afternoon before Mayor Bebout. The investigation was private and it is understood that the chief witnesses were to be Ray Lakin, owner of a dray line, and W. B. Garrigus, C. H. & D. freight agent.

At the raid the police found a large number of bills of lading and with Garrigus and Lakin they expected to ascertain what Wolters was doing with so many shipments of beer if they were for his own private use. The inquiry was conducted by Prosecutor Stevens. No charges have yet been filed against Wolters as a result of the raid.

RICHMOND, IND., MARCH 6.—RICHMOND DEFEATED RUSHVILLE 35 TO 22 THIS AFTERNOON IN THE FIRST OF THE SEMI-FINALS AT THE DISTRICT BASKETBALL TOURNAMENT. THIS ELIMINATES RUSHVILLE FROM THE TOURNAMENT AND MEANS THAT NEWCASTLE WILL PROBABLY FIGHT IT OUT WITH RICHMOND TO REPRESENT THIS DISTRICT AT THE STATE MEET.

(By a Staff Correspondent.)
Richmond, Ind., March 6.—The Rushville high school team entered the semi-finals here this afternoon at two o'clock in the sixth district tournament fully confident of beating the Richmond team, which is the opponent of Rushville by virtue of having defeated Cadiz this morning by a score of 43 to 14.

The game with Richmond this afternoon is the big test for Rushville and a victory means that Coach Burns' team will enter the finals to-night against either Newcastle or Brookville. The four games that have been played including the two this morning were won according to the dope and so far there has been no surprises.

This morning Richmond easily defeated Cadiz 43 to 14 and Brookville did exactly as was expected by winning from Hagerstown, 20 to 16. The Richmond team did not show enough class to throw a scare into the Rushville team and Coach Burns was confident that his team would win over Richmond. The other game this afternoon is between Brookville and Newcastle with the dope favoring Newcastle, although there is a chance for Brookville spilling the dope.

The first half of the Richmond—Cadiz game ended 24 to 5 in favor of Richmond. The first half of the Brookville-Hagerstown game ended 12 to 10 in favor of Brookville. This was the closest game of the tournament so far and was hard fought from start to finish. The teams were evenly matched.

Rushville came out of the Mooreland game last night in good shape. The team had a comparatively easy time in beating this team, the final count being 37 to 15. The first half ended 21 to 7 in favor of Rushville. Mooreland made but four field goals during the entire game. Tittsworth and Stoops led the scoring for Rushville, Tittsworth getting four field goals and Stoops five. Martin came through with three field goals and even Brecheisen contributed with two goals. Stoops threw nine goals from free throws.

Newcastle put Connersville out of the running by winning 33 to 11. Connersville held Newcastle in the first half but a spurt near the close left Connersville at the post.

Large crowds are attended the games and the enthusiasm is very high.

SURVIVED BY HER FATHER

Miss Dollie Lewis, 42 years old, a well known and highly respected maiden woman of Fairview, died this morning shortly after seven o'clock at her home there after a long illness from cancer. Miss Lewis had twice undergone operations in the hopes of recovering but she gradually grew worse and death had been expected for some time.

Miss Lewis was born and reared in Fairview and was widely known in this section of the county. She is survived by her aged father, William Lewis. The funeral services will be conducted Monday afternoon at two o'clock in the Fairview church and burial will take place in the cemetery there.

CONDITIONS BAD AT MEXICO CITY

Government Lays Law Down to Gen-
eral Carranza in Sharpest Terms
But is Not Optimistic.

HE HOLDS KEY TO SITUATION

(By United Press.)
Washington, March 6.—While it was declared at the white house that no news has been received of a decision of diplomatic corps to leave Mexico City it was admitted that conditions were such that would make a decision of the kind possible without a notice being given.

With the Mexican situation threatening at any moment to reach a critical stage, General Carranza today was the key to its solution. This government has laid down the law to him in the sharpest representations it has ever sent to a Mexican chieftain.

Under foreign government demands for better administration in Mexico, this government hoped the mandate will bring the chief to terms, but is not very optimistic. Carranza was told that the starvation threatening the capital must be released; that controlling the Vera Cruz-Mexico railroad as he does, he has power to alter conditions and that this nation does not approve of General Obregon's plan for leaving the city to its fate at the first riot sign.

James Russell, the five-weeks-old baby of Mr. and Mrs. Ora Cline, living three and a half miles west of Rushville, died of pneumonia at twelve-thirty o'clock today.

TRADING STAMP BILL IS PASSED

Measure Requiring Prohibitive Li-
cense of \$1,000 Ready For Gov-
ernor's Signature.

SUFFRAGE BOBS UP AGAIN

Women Propose Resolution For Con-
stitutional Amendment—Wo-
mens Labor Bill Dead.

(By United Press.)
Indianapolis, Ind., March 6.—Senator Thornton's bill to wipe out the trading stamp business was passed by the house today by a vote of 79 to 7 and sent to the governor.

It requires a prohibitory license of \$1,000 for merchants who wish to engage in the business.

Representative Harvey said that it was time the legislature did something for the merchants who asked the passage of the bill.

The legislature had refused to take a vote on the garnishee bill asked by the merchants. This bill is aimed only at trading stamp companies and would not effect tobacco coupons. Rebates of individuals are not affected by the bill.

Hours of women labor will be unlimited in Indiana for at least two years more for the house today killed the bill which had been so amended that the limit was ten hours a day and fifty-five hours a week. Representative Niblack and others who believe in limiting hours of women labor united to kill the bill after the house had refused to make the limitation stricter.

The house today hatched the remaining Stotsenberg amendments proposed for the state constitution and killed them by unanimous action. The legislature was immediately confronted with the woman's suffrage lobby again in a new form.

The woman's lobby flashed a resolution proposing a constitutional for full suffrage for women. This was intended for introduction this afternoon. It could not be introduced while the Stotsenberg amendments were pending.

Even if this proposed amendment should succeed in this session woman's suffrage could not come before the election of 1918 because the constitution provides two assemblies shall approve an amendment before it is submitted to the people.

The women still cling to the faint hope that lay in the Rule limited suffrage measure, a duplicate of the Maston bill which died in the house. They hoped the house would vote on the Rule bill yet today.

Mrs. S. C. Stinson, who held the amendment resolution, also desired a vote on the question of holding a constitutional convention, saying it would aid the woman's cause.

For the first time in the history of Indiana legislation the senate last night made possible the presentation of a workmen's compensation bill for the approval of the Governor when by a vote of 38 to 0 it passed the Sare-Feick compromise bill on that subject. The bill now goes to the Governor, and it being a party platform measure, there was no doubt among members last night that it will become a law.

The bill provides for the appointment of a board of awards to administer the proposed act, and fixes a definite compensation for injured workmen and a definite amount for his heirs in the event of death. It is made optional with the employer and employee whether they operate under it, but friends of the measure say its provisions are sufficiently desirable to induce both employer and employee to accept it. The compensation bill is the last Democratic platform measure with which the

Nieuport, Pretty Little Place West of Ostend, Joins in List That Has Been Destroyed

SHELLS DESTROYED PLACE

Cats Remain Even When People Left and Now the Place is Swarming With Them

BY WILLIAM PHILIP SIMMS

(U. P. Staff Correspondent.)

Flanders, Feb. 15. (By mail to New York)—Nieuport, the pretty little city to the west of Ostend on the Belgian coast, has gone to join the long list of cities that were but are no more. Only the name remains.

Like Pervyse, Louvain, Sernaize, and so many smiling towns of Belgium and France, nothing is left of Nieuport but the shells of what used to be habitations, churches, schools, places of business, theaters and such.

Daily the crack of German shells echo through the debris strewn valleys that used to be called streets and nightly the clatter of collapsing walls and tile roofs, weakened or undermined by the day's shelling are the only sounds to be heard outside the tramp of sentinels or the meow of cats.

Cats? The place seems swarming with them, poor, lean, starving creatures who hide in brick-and-stone littered cellars by day and come out to prowl and beg for food at night. Their eyes shine out of the darkness with an almost supernatural luster and in their voices are a quality smacking of ghostly, haunted, frequented places. They scamper out of sight among the ruins if one but says "Boo!" but if you stand still and offer the proper encouragement the drove of cats will approach and rub their arched, though bony backs against your legs, mewing up at you in the most pitiful, beseeching of ways. If you have food with you the appeal cannot be resisted and you share your sliced ham, sausages, potted meat or whatever you carry, with the famished pets.

Cats, it is said attach themselves to places instead of to persons. Nieuport proves the saying. When the population evacuated the seaside resort and called their kitties to follow, the kitties remained, deaf to the call. Each kitty had her cosy-corner, her favorite basking place in her own particular dwelling. She came when called and appeared to care for this or that member of the household. She let herself be stroked and she purred back in thankfulness but way down deep in her heart she liked the house more than she did the people inhabiting it. So when the Germans advanced and started to bombard the city, the citizens fled, group by group, until all had gone but three old maid sisters who were evacuated only this week by force. They were found in a cellar, with their 3 cats, the sisters as lean as the cats, the cats as thin as matches.

"We thought the old maid sisters were spies," a British officer told the correspondent. "For after all, it did seem queer to us that they should remain behind in Nieuport after every other single soul had made tracks for France. We placed them under arrest and started to march them off to prison when the cats came out of hiding and mewed and rubbed against the sisters and showed that they knew and liked them. This was a fact in the sister's favor so we took them to the hospital, fed them and found out who they were. They were all right and we sent them to the rear. They insisted on taking the cats along and we sent back to get them, carrying a large covered basket for the purpose. After a time the women succeeded in catching the critters and got them in the basket. Then, all of a sudden, the lid flew up like you've seen Jack-in-the-Boxes do, and out bounded the cats and off through the ruins of the town. The poor old girls cried as though the cats were wayward children and the children their own, but the kitties never came back, at least not for a day or so."

"Are they back now?"
"Sure they are back. I feed them

TRADING STAMP BILL IS PASSED

Continued from Page 1.

Senate has to deal. All of the other platform measures have been passed by the upper house.

The bill was amended to conform to the Democratic caucus action, but it was not changed in any material way from the way that it passed the house some weeks ago.

Following the passage of the compensation measure the senate reconsidered its action of yesterday afternoon and passed the Durham bill for the appointment of a state board of certified accountants. The bill was defeated yesterday afternoon and the vote was reconsidered on motion of Senator McCormick.

The senate passed the Ballou bill for the establishment of a school of mines at Purdue. That measure now goes to the house.

The senate passed yesterday, by a vote of 35 to 8, the state teachers' retirement bill providing for the pensioning of teachers who have taught thirty-five years, the Feick permanent registration bill, which was adopted as a caucus measure, and the house apportionment bill dividing the state into districts for the elections of representatives to the general assembly. A sharp fight was started to defeat the teachers' pension bill, but both Republican and Democratic leaders in the senate spoke in favor of the measure after Senator Fleming had tried to amend the bill to provide that any deficiency in the pension fund could not be restored from the state tuition fund. Senator Ballou opposed the measure on the grounds that it is unconstitutional. Senator White explained that counties might be called on from time to time to levy a tax of 1 cent on each \$100 to raise deficits in the pension fund, but he predicted that demands for such a tax would not be necessary frequently.

Republican senators fought the reapportionment bill passed by the house when the Democrats forced its passage under suspension of rules.

The Kaiser and His God

By J. Feudner

A great deal has been said and written and published by the British press agents about the Kaiser and his God. The fact is, the Kaiser is a devout Christian and therefore calls upon and relies a great deal upon God. His religious faith is one of the passions of his life, and his pious veneration of sacred things a habit founded upon deep conviction.

Since the beginning of hostilities, the Emperor's words have been more closely scrutinized than ever by his foes. A perfect fusillade of criticism was leveled at him a short time ago by persons whose religious sensibilities had been shocked by a sentence in an address to a regiment. "We shall destroy our enemies," ran the report of the imperial speech cabled from London. "Our old God up there will give us the victory."

The peculiar sounding phraseology generally reported to be used by the Kaiser when referring to God, is all on account of the peculiar construction and sentence formation of the German language. For instance, not long ago at a bazaar held here in Denver for the benefit of the German and Austrian Red Cross, a young lady wore a sash on which was this sentence, literally translated, "I have fear in the dark home to go." But this must be translated, "I'm afraid to go home in the dark." Likewise, the sentence which the Kaiser is alleged to have used, should be translated, "Our ancient God on high will give us the victory."

In my recent article on the Japanese language I demonstrated sufficiently how difficult it is to translate from one language to another, and what a bad job a poor translator could make, especially if he did not understand the language thoroughly.

A peculiarity of the German language is that the deity is addressed with

the same title as Mr. Jones or Mr. Smith. The same word which is used in English to address Jones ("Mr.") is used in German to address the deity namely "Herr."

But aside from all this, could it not be possible that the German people and their Kaiser are especially favored by God? For instance, my sister, who wrote me from Germany, and a translation of which was published in the Daily Republican a few days ago, made this significant remark: "We trust that God, who has stood by us so far will help further." This shows conclusively that the German people have evidence enough to believe that God is on their side, and they fervently hope that he will help in the future. All their prayers are to that effect.

When one considers that Germany has enjoyed great prosperity for the last twenty-five years, and has been blessed in all lines of endeavor, it might possibly be true that the Germans, including their Kaiser are a favored nation.

A few weeks ago the news was circulated here in America (cabled from London) under great "scare heads" that Italy had mobilized and was about to enter the war AGAINST THE KAISER. Not more than a few days afterwards Italy was shaken by a terrible earthquake, resulting in great loss of life and property. If the Italians really had any war fever the earthquake knocked it out. It was later reported that the Italian government took strong measures to suppress those Italian war mobs, instigated and fanned by a liberal use of money by the French ambassador. Was the Kaiser's God behind this earthquake to prevent the Italians to make war on Germany? This inference may easily be drawn.

Pittsburgh, Mar. 6.—John Wigley, recruit fireman of Truck non. 6, has no use for bedbugs, but he dearly loves cockroaches. He considers them among man's best friends.

When he joined the company some of the vamps decided to start a bedbug farm in his bed. John looking like a man with rash after a sleepless night, went to a restaurant and bought one hundred cockroaches. He turned them loose among the "b-b-s." In two days he was assured peaceful sleep.

Forty-eight of the cockroaches, he declares, he returned to the kind restaurant keeper with thanks. The other fifty-two died from overeating.

BITS OF DRAMATIC CHAT.

(BY BEAU RIALTO.)

New York, March 6.—Whether or not there is calamity in the spring breezes for New York theater magnates, the cry of hard-times was not heard the other night when the Association of Theater Managers of Greater New York gathered at the Waldorf. Charles Burnham, the perennial president of the association, seemed to think that times would brighten on the Railto and that terrapin would supplant mush for the actors who have become used to a corn-meal diet.

Speaking of spring, the springiest of the new attractions will open next week at the Knickerbocker. It's "Fads and Fancies," described as a musical melody, and of such elaborate scenic construction that the Knickerbocker is closed this week while the stage is being prepared for the newcomer. Klaw and Eranger, the producer, arise to deny that "Fads and Fancies" is a revue. They tried it first on Atlantic City, a summer dog which seldom gets fed in the winter months.

Sapristi, Sacre and Curses; Word comes from Paris that Gaby Deslys is marooned in Gay Paree, which is not gay these days and hence, a barren place for her of the twinkling toes and royal disposition. At the Century theater tomorrow night the most spectacular of American vaudeville stars will appear in the annual benefit for the Actors Fund of America. The production will be under the direction of E. F. Albee and A. Paul Keith.

Winter Flies

The winter season, naturally, is not the period in which most persons are likely to take measures to prevent the breeding of flies. In the summer, when the flies are thick, the wish will be frequently heard that preventive precautions had been taken. In the course of an inspection, January 7, by the sanitary bureau of New York, in response to complaints regarding a heap of manure, dirt and rubbish not far from a public school in a crowded district of the city, a rather startling state of affairs was revealed. The heap of manure was found partly covered with tar paper and rubbish in which, despite the cold weather prevailing—and there had been not long before a series of days with the temperature well down toward zero—flies were observed to be actively breeding. The Bulletin remarks: "This emphasizes the importance of properly caring for horse manure throughout the year and teaches anew why the filthy fly is always with us." Until definite precautions are taken during the winter to prevent the accumulation of heaps of filth and particularly piles of horse manure, in exposed situations under conditions favorable for breeding, the fly will probably continue to be the nuisance and the serious danger to health that it has always been. But it must not be forgotten, says The Journal of the American Medical Association, that whenever we are ready to get rid of the fly nuisance our boards of health can accomplish this purpose without enormous trouble probably after the first year without much additional expenditure in the budget, and with little annoyance to the public generally. When it is recalled how much the absence of this undesirable pest would mean for children alone in our crowded city life it should not be long before there is a general awakening to the necessity of taking the now well-recognized precautions during the winter that will secure great limitation, if not entire obliteration of fly breeding.

The World's Gold Pouring Into America

The United States has its first great victory to record as a result of the war in Europe. It is a peaceful victory that will shed its practical benefits into every channel of American industry and commerce.

For the first time in many years the balance of gold exchange is in favor of this country. In other words, European purchases of American commodities have greatly exceeded American purchases of European commodities during the past year. This is a condition which must benefit the United States because Europe's purchases must be paid for with European gold. This gold coming into the United States will be distributed through all trade channels. Such a situation should result in great business prosperity.

Read THE LITERARY DIGEST of March 6th (on sale everywhere to-day) and you will find a complete description of this important development, including a reflex of public opinion as shown by the newspaper press of Europe and America, regarding it. THE DIGEST makes plain to every reader the tremendous importance of this rare situation in its relation to the business conditions of the United States.

Has Japan Designs Upon China?

THE LITERARY DIGEST of March 6th, also sheds a flood of light from authoritative sources upon this phase of world-politics in the Eastern Hemisphere which had nearly escaped comment because of public attention being focused upon Europe and the war.

If you would have an interesting, impartial chronicle of the war in its many-sidedness, by all means join the million American readers who eagerly read THE LITERARY DIGEST each week.

It is not only for war-news that it is so widely appreciated in American homes, but because it deals with all other news of importance in the fields of foreign and domestic Politics, Science, Invention, Religion, Literature, Music, Drama, Sports, Trade, and Commerce.

\$1,500 OFFERED FOR UNBORN COLT

This Sum Refused Owner of Lady Maud C. for Her Foal—Pacer Formerly Wintered Here

DICK WILSON ONCE DROVE HER

Pana, Ill., Mar. 6.—Thomas Kiser of Stonington, owner of the world's pacing team, Lady Maud C. and Hedgewood Boy, today received and refused the phenomenal sum of \$1,500 for the unborn colt of Lady Maud C. L. C. Shuler, owner of Peter McCormick, with a record of 2:04 trotting made the offer. Peter McCormick is sired by Peter The Great and is the father of Lady Maud C.'s unborn foal. This is said to be the highest offer ever made in the United States. Shuler said today he had shipped Peter McCormick to San Francisco, where he will start this spring in the \$20,000 stallion trotting stake. Kiser is owner of Noretta, dam of Lady Maud C., and he has shipped this famous old mare to Lexington, Ky., to be bred to Peter The Great.

It will be recalled Lady Maud C. and Hedgewood Boy were formerly in Dick Wilson's stable and were once wintered here. They were also shown at the horse show here on one occasion.

"The Newspaper Everybody in Rush County will Eventually Read"

To be a success must be well advertised. The more people who know of a sale the larger the crowd, resulting in more competitive bidding, higher prices for the stuff and more dollars in the holder's pocket. The Daily Republican goes into every town, community and neighborhood in Rush County, and has more paid subscribers than all the rest of the Rushville papers combined. Right now everybody is looking for and reading sale notices. They want to buy. The Republican's "Public Sales" advertisements tell them who is having a sale, when and where. Sale bills will always be used but their number is decreasing. Newspaper advertising is found to reach more people and when they are in a mood to read, and is getting more popular all the time. When a man holds a sale he expects to spend a few dollars in advertising it, but he wants results. Come in; we can "deliver the goods." "Red Head" sale bills and display spaces at a reasonable rate, and we give you prompt service.

HOW TO SELL THINGS THAT ARE "FOR SALE"

Write your "For Sale" ad SIMPLY stating every detail about the article that you would want an ad to give if you were anxious to buy something of the kind yourself. Give a little thought to the "selling points" about the article, and put THEM into your ad. Then run the ad MORE THAN ONCE, if that is necessary. It may or may not be.

LADIES! DARKEN YOUR GRAY HAIR

Look years younger! Use Grand-mother's recipe of Sage Tea and Sulphur and nobody will know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two it becomes beautifully dark, glossy, and abundant.

WILL DECORATE FOR AUTO SHOW VISITORS

L. L. Banford

L. S. Shoup

John Orman

Handsome decorations will be a large part of the automobile opening week given in Indianapolis, March 8-13, by the Indianapolis dealers and factories. The displays will be held in the various salesrooms and all sorts of motor vehicles and accessories will be shown. The committee of decoration consists of L. L. Banford, John B. Orman and L. S. Shoup. Indianapolis commercial and civic bodies are interested in the show. The Indianapolis business houses will be decorated appropriately during the week.

RALSTON TO ASSIST

State Executive is Very Much Interested in Auto Affairs.

Governor Samuel M. Ralston will assist in the ceremonies to the automobile trade association, opening week to be held in Indianapolis, during the week of March 8-13, the exhibits being held in the various salesrooms. Since the governor became a motorist during the past year, he is much interested in automobile affairs—interested as an automobilist, as well as a public officer.

He has assured the automobile men that when he can be of assistance to them in furthering the industry, he will be glad to put his shoulder to the wheel.

MOTOR CLUB SECRETARY OF HELP TO MOTORISTS

W. S. Gilbreath.

Much work for good roads in Indiana has been done by W. S. Gilbreath, secretary of the Hoosier Motor Club, who will further push his propaganda for better roads in Indiana during the automobile opening week, March 8-13 at Indianapolis. Gilbreath has interested himself, as a representative of the Hoosier Motor Club, in roads, which will benefit every farmer in the state. He is also interested in the Lincoln Highway, which passes through Indiana, and the road lately suggested running from Chicago through Indiana to Miami, Florida. Autos of all sorts will be displayed during the opening week in the various salesrooms.

NOT EXPECTING MUCH FROM NAP

Joe Birmingham, However Believes
Cleveland Team Will Get Out of
Last Place This Year

THREE VETERAN PITCHERS

Infield Will be Changed and Five Are
After Outfield Jobs—Has
Promising Recruits

(U. P. Staff Correspondent.)

Cleveland, (O., Mar. 6.—While a majority of big league managers are figuring out ways and means of jimmying their teams into first place or thereabouts Joe Birmingham, manager of the Cleveland Indians, erst-while Naps, is facing the problem of fitting his team out of last place in the American League.

Birmingham has entered into the pleasant though somewhat perplexing pastime, with the zest that always marks the doings of a youthful manager, and hopes to land his team at least the fifth berth.

He started his campaign this winter by eliminating from the team several players whose views on running a ball club did not coincide with his own. Ole Olson, utility infielder was sentenced to the Cincinnati Reds; Napoleon Lajoie was sold to the Athletics and Doc Johnson first baseman, failed to find his name on the team roster when the list was made public.

The Indians will start the season with only three veteran pitchers, unless another is obtained by trade or purchase before the middle of April. Willie Mitchell, a southpaw and Fred Blasing and Bill Steen, right-handers are the vets.

Guy Morton, obtained from the Waterbury club last season, and who bears the earmark of a future great, appears to be the pick of the younger pitchers. Sam Jones, a member of the Cleveland association club last season; Conner, Walker, Bowman and Harstad are the other pitchers.

Several infield changes will be apparent when the team takes the field for the first game of the season. Bill Rodgers, with Portland, Pacific coast league last season will replace Lajoie second base. Roy Wood, who showed good form last season probably will cover first. Barbare, recruited from New Orleans, or Terry Turner, will hold forth at third.

Wambaugns, Cedar Rapids short-stop last season; Shields, Waterbury first baseman and Thomas, Omaha 1d baseman, will fight it out for the utility jobs, Barbare or Turner, having the first call, of course, if either fails to break in as a regular.

Five outfielders will try for jobs, manager Birmingham among them. Jow Jackson will hold forth in right field and will again try to nose out Ty Cobb in the race for league batting honors. He hopes to succeed this year after many vain efforts. Elmer Smith, a Waterbury recruit, will play centerfield. Smith played thirteen games with the team last fall and batted .327. He is one of the best outfield prospects the Cleveland team has picked up in years. Graney will play left field and Leehold and Birmingham will be the extra outfielders.

Steve O'Neill and Ben Egan, the latter with Baltimore last season, will do the bulk of the catching. Devogt and Billings, with the Cleveland association team last season, will fight it out for the third string job. Lee Fold, veteran catcher will instruct the young pitchers.

The Cleveland team may be the dark horse of the American league race. If Smith, Barbare and Rogers come through in style and two of the recruits pitchers deliver the goods the club should make a hot fight for a first division berth.

Public sale. Don't forget the date, March 10th of E. A. Lees' big sale of new implements, buggies, wagons, new and second hand. Work horses, fencing and posts. He is selling everything. 30515

THE SMALL FOUR \$650

DETAILED SPECIFICATIONS OF THE NEW REGAL

MOTOR—The motor is 3 3/8 x 3 3/4 inches. Cylinders are cast en-bloc. Motor develops 27 h. p. on brake test.

MOTOR SUSPENSION—Supported on side rails of frame.

CYLINDERS—Best grade of Grey Iron carefully annealed and tested before and after machining. Connecting rods drop forged from best grade 40 carbon open hearth steel, double heat-treated.

CRANKSHAFT—Drop forged, from 40 carbon open hearth steel, double heat-treated; has two main bearings.

CAMSHAFT—Driven from crankshaft; both crankshaft and camshaft have improved oil retaining device.

LUBRICATION—Lower half of crank case forms oil reservoir. Lubrication system is splash. Oil is forced directly to gear case and overflows into crank case. Lower end of each connecting rod is provided with a dipper which passes through a trough full of oil at each revolution. Oil level is constantly maintained regardless of motor speed or grades.

Circulation is by thermo-siphon system. All water passages of large size and free from steam pockets.

IGNITION—Three sources of current for ignition, starting and lighting are generator, storage battery and an extra set of dry cells for emergency use.

STARTING AND LIGHTING—A thoroughly efficient starter acts directly on the crank shaft without intermediate gears. The Regal starter has from forty to sixty fewer parts than others.

Generator delivers sufficient current for all lamps at 12 miles per hour. Above this speed the excess charges the battery. Starter spins the motor 200 R. P. M.

CLUTCH—Cone with leather facing. Bearing is die-cast of special bearing metal. Clutch throw-out operates with ball bearings.

DRIVE SHAFT—Is mounted on universal joint at front end. Drive shaft is enclosed in a torsion tube with ball joint at the front end pivoted to a cross-member of the frame.

TRANSMISSION—Selective type, three speeds forward and reverse. All shafts mounted on roller bearings. Removable cover plate gives access to every part.

REAR AXLE—Full floating on roller bearings. Housing has removable cover plate making it easy to take out the complete differential. Gear ratio 4 to 1.

SPRING SUSPENSION—Front springs are semi-elliptic, 34 inches long x 1 1/4 inches wide. The rear are cantilever 40 inches long x 2 inches wide.

CARBURETION—A 1 1/8 inch Stewart special carburetor of the float-feed automatic type is used. Gasoline adjustment on the dash.

FENDERS—Crown type rigidly attached to main frame. Running boards fitted with aluminum plates in front of doors.

WEIGHT—About 1800 pounds with equipment.

TIRES—30-inch x 3 1/2 inch, clincher demountable. One extra rim.

FRONT AXLE—I-beam drop forged. Axle and yoke are provided with phosphor bronze bushing. Steering rod is placed behind the axle.

BRAKES—Two sets—service brake operated by foot pedal is external contracting; emergency brake operated by pedal is internal expanding.

MAJORITY IS DEMORALIZED

This is Outstanding Feature That is Noticeable in Closing Days of Legislature.

LIKE SHIP WITHOUT RUDDER

Determined, Well Organized Minority in Some Instances Put Democrats to Rout.

(Special to the Daily Republican.)

Indianapolis, Ind., March 6.—The big, outstanding feature of the legislative situation during the closing days of the session is the complete demoralization of the Democratic majority in the House. It is not even like a ship without a rudder; there is no rudder and there does not appear to be masts or sails or motive power of any kind or description. The majority is running wild and none of Democracy's leaders—not even Tom Taggart or Governor Ralston—seems to have the least bit of an idea as to where they are "at." The "blow up" came when the Bell finance bill, on which the Taggart organization had centered its whole efforts, was put to death in the House the other day as a result of the activity of a determined and well organized minority. After this blow had been delivered Taggart evacuated the state house and meandered back to French Lick and Joe Bell's minions faded away, gritting their teeth and swearing eternal vengeance on the faction of the Democratic party which is opposed to the demination of Taggart Bell, Ralston and others.

Representative Branaman has practically been deposed as "floor leader" and Representative Sare of Bloomington is now trying his hand at this work. It is needless to say, however, that he is finding the job just as difficult as did Branaman and there is a possibility that the majority may have to "swap hosses" a time or two more before the session ends.

When the history of the 1915 General Assembly of Indiana is written a large chapter or two will have to be devoted to the manipulations and activities of Governor Ralston. It is rather significant, to say the least, that a number of the measures in which the governor of the commonwealth was apparently vitally interested were pronounced undesirable and in some instances vicious by the Democratic majority in one house or the other of the legislature.

The theory of state government is that the executive branch of the government shall not interfere with the workings of either the legislative or judicial branch. Ifas Ralston followed this course?

What about the Bell bill? Did he try to dominate, in this instance, the legislative branch of the state government? Wasn't he rather free in his public expressions of approval of this measure which was defeated in the House by a vote of 91 to 2? Did his interests in this measure reach the point where he attempted to use the "big stick" on Democratic representatives who were inclined to oppose this bill?

How about the "felons' relief bill?" Was the governor content to permit the legislature to handle this vicious piece of legislation without suggestion from the executive department? Is there anything in the report that the governor made efforts to influence Democratic members of the House against their judgement of this measure?

Possibly the friends of the governor might be able to justify such a course as this—possibly they may hold to the notion that it was absolutely necessary that some one in authority try to take hold and guide the Democratic in the course it should go but how about the question of consistency?

The representatives of the wo-

men's organization who have been working night and day trying to put through a limited suffrage bill appealed to Governor Ralston but according to the leaders of the women, the governor explained to them that the executive branch of the state government did not dare encroach on the rights and prerogatives of the legislative and judicial branches. Very beautiful, indeed, but slightly at variance with the policy adopted toward the Bell bill and the "felons' relief bill" wasn't it?

The Democratic legislators are now "in bad" with organized labor. The majority in the Senate, the other day, got behind a bill offered by Scotty Chambers, Sixth district Democratic chairman, relating to the printing of supplies for the state and its institutions. The leaders of organized labor are now wondering whether Chambers, in this work, acted in his capacity as a state senator or as Democratic district chairman or both. Leaders of organized labor made it plain that they were bitterly opposed to this bill as it would permit public printing to be done in nonunion shops. However, the Democrats did not pay a bit of attention to this complaint; they voted for the bill to a man while every Republican member of the Senate voted against it. The Republicans in the House are against this bill.

A paragraph in this bill reveals the Democratic idea of proper business management. After the contract for the public printing has been let for a two year period to a responsible manufacturer and after he has executed a sufficient bond, it will be possible for the authorities to purchase supplies anywhere else in the state if at any time they find any one who will sell them for less than the contract price. How many substantial business men would want to transact business on such a basis as this?

Gil Hendren, who happens to look a little like Bill Bryan, at present is holding down a very fat state office, reigning as head of the accounting board. Apparently Hendren or his friends have lately been giving some thought to the future; thinking of the time when his term of office must end. That it must end is certain as there comes and end to all things. Apparently Hendren and his friends were more or less certain that the Democrats were going to be shoved into the discard in Indiana next year, with the result that Hendren would not be reappointed to the fat job that he now holds. What more natural then that Hendren's friends should remember that Tom Broley did two years ago when he had the notorious 1913 legislature extend his term of office two years. As a consequence, a bill was introduced in the legislature, the main object of which to extend Hendren's term of office for two full and substantial years. It goes without saying that this bill will find rough sledding in the House. The Republicans, with their minds filled with visions of the future, will oppose this bill while about 20 Democrats, imbued with notions of honesty and decency in the conduct of public business, will refuse to stand for this remarkable undertaking.

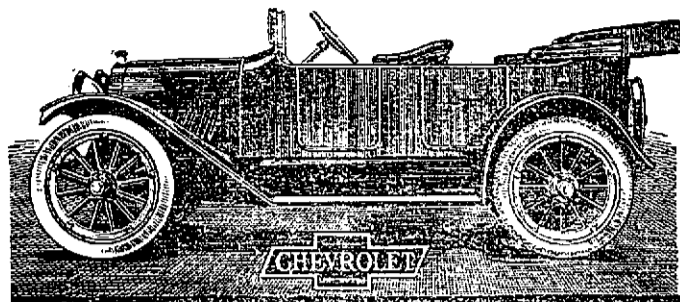

Perhaps Hendren should not be criticized too severely for this move. Since he looks like Bryan possibly he possesses some of Bryan's traits—his love for office, possibly.

It has developed within the last day or two that the Democratic ma-

The House the Red Jacket Saved

Read This Letter:
"Several years ago I called on Lane & Evans to buy a pump and they almost forced me to buy one of your Fig. 28 Red Jacket Double-Acting Force Pumps and fifty feet of hose when I only intended to buy a cheap set length pump. Mr. Lane put up such strong argument on "fire protection" that I followed his advice and bought the Fig. 28, little thinking that it would be of any service to me in that respect. Shortly after the pump was installed, my barn caught fire and had it not been for this pump and hose and the thoughtfulness of Mrs. Barnett, my barn, house and all buildings on the place would have been destroyed."

Don't Pass Up the Comforts and Pleasures of Life

You have seen the museum mummy—take a hunch from him. He hasn't had any pleasure for over 5,000 years. He had his opportunity—did he get his share? Do you? Buy what you need and make life a pleasure to yourself and family. There will come a time when you can't. Ask the mummy, he knew once—did he enjoy life to the full extent as it was intended for him to do? He won't answer—it's up to you. For instance, if you need a New Storm Buggy or any other kind of a buggy, why don't you buy it and buy it now? We have plenty of them and we want to sell them. We have every style that was ever made, all colors of paint, all kinds of combinations. The man that deprives himself of all these comforts of life may leave a bigger tombstone to mark the hole he is finally forced to crawl into but he is a mummy all the years of his life. So get busy, buy yourself a buggy, buy the boy a buggy and get what pleasure you can out of life now. Next year may be too late. Don't forget our Opening on March 12-13. Come in and have a good time with us and don't forget to buy what you need to make life worth while. You will be a mummy soon enough.

MEAT CAUSE OF KIDNEY TROUBLE

Take a glass of Salts if your Back hurts or Bladder bothers—Meat forms uric acid.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or side, headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, cleanse the kidneys and flush off the body's urinous waste get four ounces Jad Salts from any pharmacy here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. The famous salts is made from the acid grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in uric acid so it no longer irritates, thus no bladder weakness.

Jad Salts is inexpensive; cures rheumatism, and makes a delightful effervescent lithia-water drink.

chine is making a desperate attempt to use the legislative apportionment bill in an attempt to line up support for the bill to lengthen the term of office of Gil Hendren. Legislators have become panicky when they learned that changes that would result in a political upheaval in their district and at once, it is said, intimations have been forthcoming to them that possibly their districts might be fixed up to their liking if they could see their way to support the Hendren bill. It certainly is going some when the interests of the whole Democratic party can be jeopardized in the interests of an individual office holder. This is but another indication that the Democratic machine is bound to have its own way if it can possibly find a way to accomplish the trick. So far as is known, this is the first time in the political history of Indiana that a "gerrymander" measure was used to force through the legislature, a piece of undesirable, personal legislation. Reports are constantly coming in-

to Indianapolis to the effect that the Democratic field examiners, attached to the state board of accounts, are spending a large part of their time in boosting the candidacy of William H. O'Brien for the Democratic nomination for governor. It is said that these employees of the state of Indiana are not the least bit backward in their work; that they are openly announcing wherever they go that "the organization is for O'Brien". Of course, as far as practical results are concerned, this does not make much difference for the reason that no one seems to care who gets the next Democratic gubernatorial nomination as it is generally looked upon as an empty and valueless honor.

Oliver Plows

It is a fact that every word we say about the No. 11 Oliver Sulky Plow is true, and if you have ever owned one you know we can't speak too well for this OLIVER SULKY. It is the best plow for any soil, at any time and under any conditions, that is manufactured today. Its construction is simplicity in every detail; hence it is light in weight. It is built to hug the ground; it is the only plow which successfully backs furrows, turns square corners, right or left without raising the base, and is acknowledged to be the lightest in draft and turns the soil in better condition than any other sulky plow. And I hereby challenge any manufacturer or dealer for a fair field trial that the No. 11 OLIVER SULKY is lighter in draft, will turn the soil in better condition, turn all trash under better and leave your ground in better condition than any other Sulky Plow manufactured.

We have a good stock of Oliver Sulky and Walking Plows and Repairs on hands, and invite you to call and see me, and get prices before you buy.

FRENCH SHIP AFIRE AT SEA

Four Steamers Rush to Assistance
of LaTouraine, Which Has 284
Souls Aboard

700 MILES OFF FRENCH PORT

On Her Passenger List Are Five
American Doctors and Ten
American Nurses

(By United Press.)

London, March 6.—The French two-funnelled steamer La Touraine carrying 84 passengers and a crew of 200, is on fire 700 miles west of the French port of Brest according to a wireless to Lloyds at 10:25 a. m. today. Four steamers are hurrying to her assistance.

The message came from a wireless station on the west coast of Ireland. Her owners, the Compagnie Generale Trans-Atlantique, gave out the following statement:

"The La Touraine, New York to Havre, is afire off the coast of Ireland. She was due at Havre tomorrow, consequently she can not be in great danger owing to her nearness to the English coast. There is plenty of help very near her. The White Star liner Arabic and other vessels are rushing to her assistance. The only news we have received is from the Valentia wireless station."

The La Touraine sailed from New York February 26. On her passenger list are five American doctors and ten American nurses bound for French ports. The remainder of her passengers consisted largely of Montreal people whose business demanded their attention in France and a number of French reservists who are going to join the colors.

First Cabin Passenger List Largely
From Canada.

(By United Press.)

New York, March 6.—Practically all of the first cabin passengers are residents of Montreal, according to the New York offices of Compagnie Generale Trans-Atlantique. The general agent of the French company, Fauguet is aboard.

In addition to the American nurses whose names were published in London dispatches, were Mrs. Alenia M. McCormick and Florence Gordon members of the American hospital unit.

NOT SPENDING THE MONEY ON HIS SON

Riley Stewart Alleges Divorced Wife
Uses Sums Court Intended For
His Boy.

WANTS DECREE MODIFIED

Paying support money at the rate of \$3 a week to his divorced wife for the support of his son, and \$2.50 additional a week when the boy is attending school, has become monotonous to Riley Stewart and he has filed a petition against Minnie Stewart, asking that a divorce decree be modified.

Stewart has been paying these sums ever since September 26, 1905, at which time a divorce was granted. The decree calls for the payment of \$3 a week for the support of Lowell Stewart, and the boy is to get an additional of \$2.50 while going to school. Stewart asserts that the boy is not going to school and that his divorced wife is using the money for her own personal needs instead of spending it on their son.

LITTLE HOPE FOR WOMEN'S HELP

"Drys" Here Feel it is Practically
Assured There Will be no Suffrage
Legislation.

WOMEN LOSE IN TEST VOTE

They Are Still Confident, However,
and Insist on Ballot on the
Rule Measure.

"Dry" advocates here whose hopes were aroused two weeks ago by the passage, almost unanimously, in the state senate at Indianapolis of the Maston limited women's suffrage bill, now hold there is little reason to believe that the aid of the women of Rushville may be expected when the local option election rolls around Tuesday, March 30, because limited suffrage legislation in the legislature is as good as dead now.

Woman suffragists who have been staying with the legislature ever since the fight has been on succeeded in bringing the question before the house, although not directly, and the house registered its disapproval of women's suffrage. But the women are still fighting, according to word from Indianapolis, and will not give up until the legislature adjourns sine die Monday night.

The only hopes of the suffragists now lies in the Rule bill, identical to the Maston bill, which has reached third reading and which the suffragists have demanded be handed down by Speaker Bedwell in the house for a test vote.

Although the Maston bill, passed by the senate, which has been held in the house judiciary A committee is doomed to remain in committee the rest of the session for late Thursday afternoon the house voted, 53 to 41, to lay on the table the resolution that the committee should report the Maston bill out to the house Friday morning at ten o'clock.

The request that Speaker Bedwell hand down the Rule bill in the house was backed by the Legislative Council of Indiana Women, which has been waging the fight, and Dr. Amelia Keller, of the Women's Franchise League of Indiana.

"In asking the Speaker to hand down the Rule bill, we are simply following out the policy as outlined by the 50,000 women throughout the state, and it would be impossible to get a referendum vote on it by telegrams. I am also following out the advice Governor Ralston gave to me when he said, 'Continue the fight on down the line,'" said Mrs. S. C. Stinson who is at the head of the steering committee.

"I believe the majority of the senate is in favor of suffrage in spite of all the talk as to their insincerity in passing the Maston bill.

"We have been told this morning since entering the statehouse that men who did not like to vote to force out the Maston bill would vote favorably if there was a direct vote on the suffrage. We believe there have been several times since the opening of the legislature when we had a majority in the house, but because of the status of some of the bills being pushed by the representatives they felt they could not vote for it yesterday.

"The women of the state have given instructions as to how the work should be carried on and the legislative council is being guided by their decisions which were indorsed by men at home interested in the suffrage measure, and especially in its relation to the Democratic party. Hundreds of clippings have come to the office, taken from Democratic papers, which are in favor of suffrage and urging its enactment into law."

Chance of a Life Time To Get This Famous Hoosier Kitchen Cabinet

SAVE \$2.50

Beginning TODAY, for one week only, The Hoosier Manufacturing Company permits us to sell the "WHITE BEAUTY" at \$2.50 less than the low cash price established by the Hoosier Company. Regular Hoosier prices are remarkably low. This reduction means an unheard-of bargain. 800,000 Hoosier Cabinets have been sold. "WHITE

BEAUTY" is the finest Hoosier made. To double the sale of this one cabinet quickly, the Hoosier Company authorizes this sale in 1000 picked towns. This is truly the chance of a lifetime for a few women only. Our allotment is strictly limited.

"White Beauty" delivered for \$1.00

Then \$1 weekly soon pays the balance. Your money back if you're not delighted with it. No extra fees. No interest. Just the cash price less \$2.50.

Saves Miles of Steps for Your Tired Feet

You now must carry things from your cupboard and pantry to your table and back again at every meal. This means miles of steps. The Hoosier saves all these because it combines everything at your fingers' ends. You can sit down in front of the Hoosier and do nearly all your work. You save energy by saving steps. You have more leisure.

Has 40 Labor-Saving Features—17 New

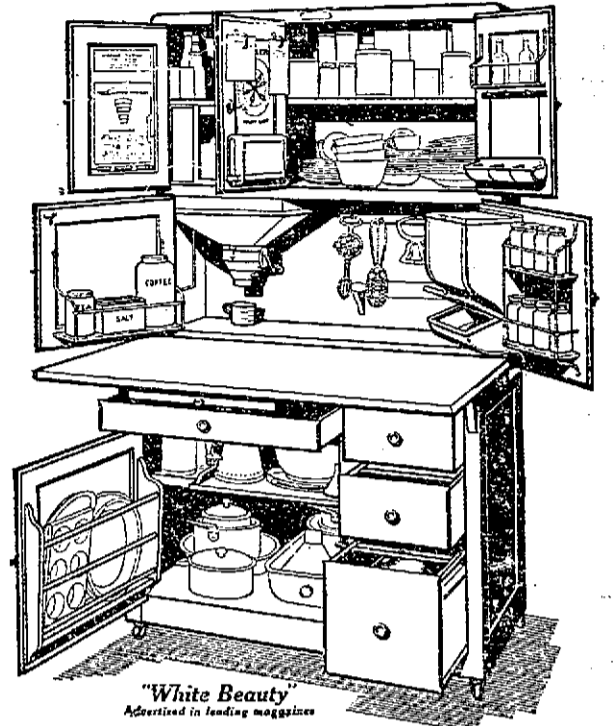

This "WHITE BEAUTY" gives you a real scientific kitchen. You can put 400 articles in this new Hoosier, every one at your fingers' ends.

The cabinet includes the patented shaker flour sifter—only sifter made that shakes flour through instead of grinding it. It also has a complete accounting system; a cook-book holder that keeps your book always open in front of your eye; Mrs. Christine Frederick's Food Guide that answers the question, "What shall I have for dinner?" The new all-metal bread and cake box has double capacity, due to improved arrangement, and the work table is of pure aluminum.

Take Five Minutes to Decide Now

Come in TODAY — examine these new Hoosier carefully—then decide whether you want to buy now while you can save \$2.50, or later when you cannot buy below the regular set prices; decide whether you can afford to waste the energy you now spend in walking in your kitchen, when a single dollar will bring you the Hoosier tomorrow.

Remember—that the new Hoosier Club may be entirely

filled the first or second day of this sale. Come at once and enroll your name.

Remember — that after this sale the "WHITE BEAUTY" goes back to the regular price.

Try the Hoosier in your kitchen. Then, if you will part with it, we will gladly refund your dollar. Come early. Other women, too, are making up their minds now.

THE GEO. C. WYATT & CO.

TO THE PUBLIC: We authorize this sale, limited to "White Beauty" Hoosier cabinets, at \$2.50 less than the fixed cash price of these cabinets, this week only. THE HOOSIER MFG. CO., New Castle, Ind.

PITTSBURGH BANK CLOSES ITS DOORS

Officers and Directors of German
National Identified With Pitts-
burgh Brewing Co.

THE BUSINESS CURTAILED

Pittsburgh, Pa., March 6.—The German National bank of Pittsburgh did not open its doors for business Thursday. A notice on the door said it had been closed by order of the controller of the currency.

Officers and directors of the German National are identified with the Pittsburgh Brewing Company, whose securities recently have suffered heavily on the Pittsburgh Stock Exchange because, it was said, of the enactment of prohibition laws in West Virginia and the extension of local option in eastern Ohio, territory in which the brewing company formerly did a large business.

A. A. Fraunheim, vice president of the bank, is a director in the Pittsburgh Brewing Company, and E. J. Vilsack, a director in the bank, is vice president of the brewing company.

The German National was one of the member banks of the Pittsburgh Clearing House Association. Little excitement attended the closing of the institution, although a large crowd gathered in front of the
